## FOOTBALL GAME SWIMMING CONTEST

Sanger and Selma Mudders  
Break Even.

Basket-Ball Girls Win Easy  
Victory from Stockton  
Hi Team.

SELMA, Nov. 26.—It was a wet and bedraggled lot of high school athletic enthusiasts that returned from the football game in Sanger yesterday, and much disappointment was evident in the faces of the team. The game, which was played at the Sanger high school, was a close one, but Selma's team won by a score of 27 to 7.

The Thanksgiving ball given by the Selma High School at the Selma Hotel last night was a very successful one. The game was played at the Selma high school, and the Selma team won by a score of 27 to 7.

The Thanksgiving ball given by the Selma High School at the Selma Hotel last night was a very successful one. The game was played at the Selma high school, and the Selma team won by a score of 27 to 7.

Charles B. Sargent, who formerly resided here, but who now makes Oakland his home, is here visiting with friends.

A Thanksgiving Day wedding of interest was that of Miss Cora M. Thomas and Edward J. Davies of Bakersfield, at the home of the bride's parents, Mr. and Mrs. J. G. Thomas, in Selma. The rooms were decorated with garlands of smilax and clusters of white chrysanthemums. The bride couple stood beneath a bell of these white blossoms while the ceremony was performed by Rev. W. Thompson of the U. B. church.

In the wedding supper which followed the table service was that which had been used at the wedding of the bride's parents almost forty years ago.

Mr. and Mrs. Earl Oles, who have been residing in Berkeley, are recent arrivals who will make Selma their home.

Rev. Aubrey Wilson, recently from the East, has accepted the pastorate of the Christian church. The former pastor, Rev. D. Stewart, accompanied by his wife, are daily expected to return from their trip to Eastern states, but will only be here for a few days. Mr. Stewart will probably take up evangelistic work in Florida or neighboring states.

The newly organized Locan school district, which has built a school house and is in its first term, is about to enlarge its territory amounting to 450 acres. It is proposed to cut the south-west quarter of 4 and west half of 24-25 acres of the Granville district and annex it to Locan. The reason for the change is one of convenience, because it is three miles to the Granville and only one and a half miles to the Locan school house.

Edward Peterson, proprietor of a local news wagon, pleaded guilty to a charge of battery yesterday before Judge Granville and was fined \$10. The fine was promptly paid. Peterson was arrested by Patrol Officer Stanford on a warrant charging him with striking two small boys at the Webster school. The boys were playing marbles during a recess period. When Peterson, in passing, despoiled the boys of their marbles and accordingly gave them a beating.

Thomas McCall, Thomas Clark and Joseph Clark, who were arrested a few nights ago by Patrolman Goehring and McCall for assault with intent to commit robbery on an aged Armenian in Chinatown, were sentenced to thirty days each in the county jail by Judge Briggs yesterday. The charges against the men were reduced to simple assault and pleas of guilty were entered. The defense put up by the trio was drunkenness.

Thomas McCall, Thomas Clark and Joseph Clark, who were arrested a few nights ago by Patrolman Goehring and McCall for assault with intent to commit robbery on an aged Armenian in Chinatown, were sentenced to thirty days each in the county jail by Judge Briggs yesterday. The charges against the men were reduced to simple assault and pleas of guilty were entered. The defense put up by the trio was drunkenness.

## POSTAL JOINS WITH INDEPENDENT LINES

SPOKANE, Nov. 26.—The Chronicle states today that, apparently in preparation for battle with the recently merged Western Union and American Telephone and Telegraph interests, a co-operative working agreement has been effected between the Postal Telegraph Company and the Independent Telephone Company of the Northwest. All independent telephone lines between Seattle and St. Paul, including the Interstate Telephone Company, the Home Telephone Company and the local long distance telephone company, are included.

## ROBBER IS SHOT; OFFICER WOUNDED

REMIJI, Minn., Nov. 26.—A robber, whose name is said to be "Jim" Smith, was instantly killed and Deputy Sheriff Andrew Johnson was fatally shot today in a fight between officers and two robbers who had blown a safe in the village of Puposis, seventeen miles northwest of here.

## CANADIAN LIBERALS NEARLY WIPED OUT

VICTORIA, B. C., Nov. 26.—Complete returns from the British Columbia elections give the Conservatives thirty-eight seats in parliament, the Socialists two and the Liberals two. The Conservative ministry appealed to the country for endorsement of its course to grant a subsidy to the Canadian Northern railroad. Friends of the ministry declared that the Canadian Pacific was supporting the opposition party.

## CHURCH FIRE MAY HAVE BEEN SET

PORTLAND, Nov. 26.—Under circumstances strongly indicating incendiarism, fire totally destroyed the handsome new Woodstock Methodist Episcopal church and all its furniture and the residence of Rev. John D. Oves, its pastor, adjacent to the structure today. Almost all the furniture and personal property of the preacher and his wife were saved from the flames by the vigorous efforts of neighbors.

## FEARLESSNESS OF SEAGULLS.

A Glasgow doctor who was recently touring in the highlands had a somewhat unique experience with seagulls while passing through the Caledonian Canal. The birds were, as usual, following the steamer and were being fed by the passengers.

## OCCUPATIONS OF COLLEGE MEN.

Of a recent class of Harvard College students the following are the occupations: Business, 135; law, 59; engineering, 54; teaching, 48; medicine, 41; journalism, 18; architecture, 16; the ministry, 12; and chemistry, 9. Therefore, out of a total of 427, leaving 100 per cent, the occupations are: business, 31 per cent; law, 23 per cent; engineering, 12 per cent; teaching, 10 per cent; medicine, 9 per cent; journalism, 4 per cent; architecture, 4 per cent; the ministry, 2 per cent; and chemistry, 2 per cent. American College.

Meet me at the Opera Billiard Parlors, J and F. Fresno. J. D. Heley, Prop.

After it was all over last year, did you say, "next year I'll shop earlier and avoid all the rush and discomfort I've experienced & endured this year?" ---Did you? And if you intend to keep faith with yourself, it's none too early to begin now.

Our Christmas goods are ready, stocks are new and bright and fresh---clerks are able to give you their best and undivided attention---now.

Another Flurry In Fur Turbans  
Scheduled for Today  
Don't Miss These A new, fresh lot of those adorable little (and some big) fur turbans in different styles of trim---jet, or heads & tails---all black ones. Choice of whole lot 3.98

Remainder of Tailored Suits for Women to be Sold Quickly

500 Suits In This Sale

---Even good company must part sometime---and the time for these suits to go is here, and go they must.

These Are the Prices to Speed Them Out:

Values up to 22.50 Now 14.95

Children's fine Sweaters, all wool, with pockets & pearl buttons, only ..... 1.50

We sell the celebrated Marinette Knitting Co.'s Sweaters, knitted in Marinette Wis.

You Get What You Like & You Like What You Get at

FIRST CRACKERS IN UNITED STATES

The first cracker produced in the United States, so far as known, was pilot or ship bread, a large, round, lumpy, crisp affair, which supplied the demand of the merchant mariner for an article of food that would, unlike ordinary bread, keep for a prolonged period.

Later another variety was originated, the cold water cracker, which differed from the first chiefly in its smaller size, more compact texture, and greater hardness. For a long time these two were the only goods known to the trade.

They were both made of unleavened dough, mixed and kneaded by hand, and each cracker was rolled out and shaped separately before being placed, one at a time, on a long handled sheet iron shovel or peel, and transferred in order to the foot of the oval shaped oven then in use. It was not until some time later that raised or fermented dough was used in the manufacture of crackers, and it is only within the past 50 years that any cracker has been produced. Bakers Weekly.

YOUR KIDNEYS ACT FINE AND BLADDER MISERY VANISHES

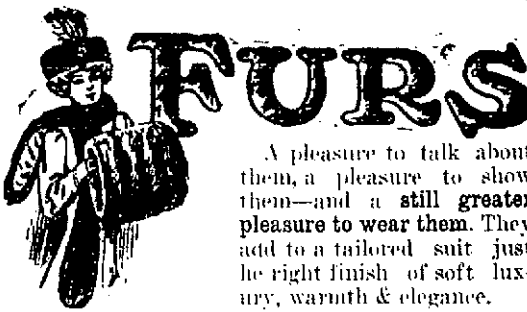

A Few Doses Regulate Out-of-Order Kidneys Ending Backache.

If you take several doses of Pape's Diuretic, all backache and distress from out-of-order kidneys or bladder trouble will vanish, and you will feel fine.

Lame back, painful stiffness, rheumatism, nervous headache, dizziness, irritability, sleeplessness, inflamed or swollen eyelids, worn-out, sick feeling, and other symptoms of sluggish, inactive kidneys disappear.

Uncontrollable smarting, frequent urination (especially at night), and all bladder misery ends.

Feeling miserable and worried is needless, because this unusual preparation goes at once to the disordered kidneys, bladder and urinary system and distributes its healing, cleansing and vitalizing influence directly upon the organs and glands affected, and completely cures before you realize it.

A pleasure to talk about them, a pleasure to show them---and a still greater pleasure to wear them. They add to a tailored suit just the right finish of soft luxury, warmth & elegance.

Judge from these how fairly priced are scores upon scores of beautiful pieces that here await your selection.

## GET A REPUTATION

Two interesting attacks on the direct primary are printed in the Sacramento Union. One is from the Washington Post and the other from the Baker-Eldred Echo.

The Post's objection to the primary is that it is based on the fundamental principle that the people are pure and infallible and that the majority can do no wrong. The Echo's objection is that it costs money for an unknown man to run for governor unless he has organized backing, as witness the case of Friend William Richardson, of the Berkeley Gazette, who would like to run for governor but refrains, for lack of the price. "Unless a man already has a state reputation—state fame, in fact—it will cost thousands of dollars either in newspaper advertising or in traveling expenses to make his name, his portrait or his features and a little of what he stands for known to the voters who must pass upon the claims."

All of which, as applied to governor, is stuff and nonsense. As to the minor state officers, it is probably true. The direct primary is a failure, as a method of choosing them. So is the convention. So is the farce of pretending to elect them by popular vote. So is everything, except appointing them. There is no process whatever, tried or untried, by which these officials can be easily chosen by the people. They are always appointed by somebody, and it is a mental, physical and mathematical impossibility to get them chosen by any other process. The advantage of the direct primary, in this respect, is that its failure can not be concealed. Under the old system, the people might or might not have chosen the officials they were choosing their minor officials. Under the direct primary they will be conscious that they do not and can not do so. Thus will be brought nearer the day when these officers are made equally appointive. They are appointive now, but the people do not choose the appointer. When the people realize that it is a case of appointment either way, and that the only difference is between appointment by an elective officer or appointment by an appointive officer, they will no longer hesitate to restore the power to their own hands in the only way it can be done—by themselves choosing the appointer. Meantime, the direct primary, will at least give them the chance to choose between a ticket selected by the Southern Pacific political bureau and one selected by the Lincoln-Roosevelt League.

But, as to governor, the objection is to no point. Everybody, known or unknown, prominent or obscure, has, of course, an equal right to run for governor. But he has not the right to be elected by law into an "equal likelihood of success. Under ordinary conditions, no man without a state reputation has any right to expect people to consider him seriously for governor. Why should he? Why should a man of whom the people never heard expect the people to nominate him? "Get a reputation" is at least as fair a rule in politics as in prize-fighting. And the question "How shall I get a reputation?" does not need answering. Most men can't. Also, most men can't be governor. In a government by the people, a man to be chosen by the people must be known to the people. There are various ways of getting known. Spending money is one way, but the majority of "state reputations" are not established in that way. The man who has not succeeded in making himself known to the people should not expect to succeed in getting their votes. But he has an equal right to try, and that right the direct primary gives him. He could not succeed under any system. Under any system except the direct primary, he would not even have the chance to try, before the people. Friend William Richardson (who is, however, by no means unknown, nor badly known) could not be governor under any system. He can at least try to be governor, under the direct primary. If he is sensible enough not to "make the trial, so much the more to his credit.

The one exception is in the case of an organization, representing an issue, which is strong enough with the people to get its endorsement accepted by them, without their personal knowledge of the candidate. To refer again to the Lincoln-Roosevelt League: Presumably the League would not take the risk of presenting an unknown man for governor. Even aside from the risk, it could hardly do so, by virtue of its state-wide and representative organization. Its state representatives could hardly agree on a man not known to the state. But if they did, he would at least go before the voters respectfully recommended, and he would have at least a chance of success. The advantage of an unknown man recommended by known persons over an unknown man not recommended at all is natural, inevitable and proper. The advantage of a known man over them both is also proper. No law could or should equalize these disadvantages. If the man whom nobody ever heard of is to have an equal chance with everybody else to be governor, we might as well choose governors by lot, and be done with it. Even lot might serve us better than the convention system has done.

The Post's objection is still more foolish. It is doubtless a "fundamental fallacy" to assume "that the people are pure and infallible and that the majority can do no wrong." But the direct primary is not based on that assumption. It does not propose to "give the people the government." It is nobody's business to "give" the people good government. The people can do for themselves what they please.

## UNCLE JOE IS MAD

Speaker Cannon is going to speak from manuscript tonight. It is a good thing. "Uncle Joe" is getting hysterical, and if some one will revise his manuscript for him, it will be a measure of safety.

But let not Speaker Cannon too much muddle the issue, even if his opponents have done so. Cannon is not the issue; "tariffism" is not the issue, and the tariff is not the issue. "Uncle Joe" is still personally popular, whatever he was ever popular. Anybody that is speaker will be a speaker. Congress would not tolerate more than one session speaker who would not boss it, and the people themselves would not endure an unbossed Congress. There is no unbossed legislative body in the world, and if there were it would be a menace to its country. The only difference is that other nations provide in their constitutions for an official boss, while our constitution makers forgot that necessity, and left us to make an unofficial one out of the preading officer. Also the tariff is not the issue. Even Senator Cummings, whom Cannon would like to kick off the earth, does not propose to disturb the tariff. Most of the tariff bill is good, and the bad part does for the present less harm than the attempt to make it better would do. Senator Cummings proposes to work for increased power for the tariff commission, so that when the time does come to revise the tariff again, there will be some way to do it intelligently. That is President Taft's idea, too. Uncle Joe had better include the president in his kicking-off process.

The issue is deeper and broader, and Uncle Joe does not understand it. It is the overthrow of a "system" of which he is an almost unconscious and automatic part. It is a system which rules governments and parties, and arrogates democracy. It is a system which free government must overthrow, or else give way to some unfree government strong enough for the job. It is the issue of the supremacy of government or of organized private interests. Under some government, that issue must be won. We are trying the experiment, to see if it can be done under free government. "Uncle Joe" is in the way, that is all. So he must get out of the way.

## DE ARMOND FUNERAL IMPUSING AFFAIR

Statesmen and Fellow Townsmen Join Together to Mourn for Dead Congressman.

BUTTE, Mont., Nov. 25.—Hundreds of prominent men of Montana and many from outside the state joined the citizens of Butte today in paying respect to the memory of the late representative David A. De Armond, who met a tragic death here last Tuesday in a vain effort to save the life of his grandson, David A. De Armond III. All Butte is in mourning.

The bodies of both victims were buried in the local cemetery in one casket, following simple services at the M. E. church, where the late congressman had been a member. The funeral services were in charge of the Masonic lodge.

No such honor and show of affection for a departed citizen had been displayed in Montana in many years. The coffin was banked high with floral emblems and the little church was crowded till not another person could have entered. Crowds of mourners literally blocked the streets leading to the church and hundreds followed the bodies to their final resting place.

Among the mourners, members of the family of the late congressman who had come from a distance were Edward H. De Armond, a son of the deceased, who is an instructor at West Point, and two brothers, William De Armond of Chicago and James De Armond of Davenport, Iowa.

Governor Herbert H. Hadley, former governor Joseph W. Folk and Alexander Dockery, the members of the Missouri delegation to the national House of Representatives, Senators William Warner and William J. Stone of Missouri and the committee appointed by Speaker Cannon and Vice President Sherman to attend the funeral were among the distinguished persons present.

One of the active pall bearers was Representative W. A. Jones of Warsaw, Virginia. Representative De Armond and Representative Jones entered Congress at the same time and for years had been intimate friends.

## TEN MORE MEN LOSE THEIR JOBS

NEW YORK, November 26.—Ten more assistant waiters were dismissed from the Columbia service today.

The collector announced that these dismissals the "general house cleaning" in the customs house as the result of the investigation into underhand weighing frauds, has been completed. Some individual cases remained, however, on which he might find it necessary to take action, the collector added.

Loeb stated that there were no charges against the men removed today, but that investigation had developed circumstances making it advisable to dispense with their services.

Including today's dismissals, eighty-three men have been removed by the collector since the work of the adjustment of the service staff began.

The collector said he wished to correct a misapprehension which appeared to him to be somewhat general, to the effect that the civil service rules had been disregarded in this case, and that appointments previously made during the upheaval. This was not the case, he declared, the civil service rules had been strictly regarded and appointments of new men in all cases having been made from the civil service lists.

**KILLED BY TROLLEY CAR**  
 LOS ANGELES, Nov. 26.—Joseph Lombardo, wealthy Italian rancher, was instantly killed when a car on the Redondo-Los Angeles electric line struck him tonight. Lombardo attempted to stop the car on Grand avenue by standing on the track and waving his hand and misjudged the speed at which the car was moving.

## BRIEF EDITORIAL FANCIES SELECTED

### Sacramento Justice

That there is a blind of justice in Sacramento might be copied with advantage elsewhere is suggested by the outcome in the case of one Wood, a chauffeur of the capital. Wood drove an automobile that ran over and killed a man last August. He was tried for manslaughter and convicted. Judge Hughes imposed a sentence of ten years in Folsom prison, but ordered that the commitment be withheld and the defendant placed in probation. The terms of the probation included a provision compelling Wood to contribute \$25 a month toward the support of five children he made fatherless by the reckless driving. If he fails to comply with this and other provisions of his probation, Wood will go to Folsom and serve his sentence.

Not many sentences of this sort will be necessary to convince reckless auto drivers that it is not safe for them to imperil the lives of others. At first thought it might seem that the fellow whose criminal carelessness costs a human life, ought to serve a prison term. But there is something very proper about the provision compelling him to support his children. At first thought it might seem that the fellow whose criminal carelessness costs a human life, ought to serve a prison term. But there is something very proper about the provision compelling him to support his children.

### Is Coalinga on the Map?

Some pretentious individuals whose egoism is only exceeded by their extreme ignorance furnish about half the amusement in this world at their own expense and make themselves believe that they are amusing the entire world. At some other fellow's expense. An example of this fact is shown by the following comment of the Boston American upon Coalinga's bid for the Jeffries-Johnson fight:

"Coalinga, Cal., which was squeezed onto the map and precipitated into public notice, is a town of 100 population, about seventy-five miles southeast of Fresno, and nearer no other place of consequence."

The pin head sporting editor of the American, who struts around on Saturday night with his trousers pocket jammed in his trousers pocket, imagines that he is about the "wisest guy" that ever "dished up" sporting "dope"; that he represents the only paper published and that Boston is about the only city in the "hole country" where a genuine sporting official map. Horton is indeed a great city and the American is a great paper, but in a great city where a sporting editor on a great paper receives less salary than the printer's "devil" is paid in a daily newspaper office in Coalinga, \$100,000 makes a noise like John D.'s bank roll in the ears of the sporting editor.

This sporting editor is evidently not aware of the fact that the west has made some development in the last half century. Big glaring ignorance of census statistics is excusable by the possible fact that a dollar looks so big in Boston that a census register is used for a decade before the price of a new one can be spared, but his profound ignorance of geography is unpardonable. Coalinga still occupies the same position on the map that she always has and we have yet to find a map representing Coalinga as a foothill village of the Sierra Nevada.

For the education of this egotistical individual we will say that the greatest development in the United States is being made in the west. The greatest industry of the west is the oil industry and Coalinga represents the greatest oil fields in the world. Instead of being the country hole hamlet of a hundred souls as our eastern "sport" would have it appear, Coalinga represents more than 10,000 good, live and loyal citizens, and she is growing faster than any other city in the west.

When Coalinga made her bid of \$100,000 for the Jeffries-Johnson fight she made it in good faith and has the money to back up her bid.

So disabuse your mind, Willie. Wake up. Snore and get the dust off of your brains. Open your eyes and begin to realize what is going on about you.—Coalinga Times.

## TWO HUNDRED MORE STONE CUTTERS QUIT

REDFORD, Ind., Nov. 26.—After reading notices posted about town that Judge Wilson on the application of the mill owners in the great stone quarries of this district had granted a restraining order against the striking cutters, the operatives of the Bradford Stone Works and the Redford Steam Stone Works, quit work today. This swelled the ranks of the strikers by 200.

**CONDUCTOR KILLS TWO NEGROES**  
 MEMPHIS, Tenn., Nov. 26.—In a dispute here today over a street car transfer, Conductor J. H. Lowery shot and killed two negroes. The car was crowded with passengers when Lowery shot at a negro with whom he was disputing. His aim was bad and the bullet struck a negro. Killing him. His second shot killed his intended victim, who was trying to leave the car.

## FIRE THREATENS ALASKAN TOWN

SEATTLE, Nov. 26.—A dispatch from Seward on Resurrection Bay, Alaska, said that the town is threatened with destruction by fire and that all the men there are fighting the flames. Seward, during the construction of the Alaska Central railroad, was a place of importance. Later the bankruptcy of the railroad had a depressing influence on the town and it was almost abandoned. The new owners of the Alaska Central announced lately that the ocean terminal would be removed from Seward to a more accessible place.

## ILLINOISAN HAS PRAISE FOR CANNON

WASHINGTON, Nov. 26.—"Speaker Cannon never was stronger before the thinking people of the country than he is today."

This statement was made at the White House today by Representative Hamilton of Illinois, who had called to see the president and was asked about the situation in Congress.

"I know two men," continued Hamilton, "who had entertained feelings of animosity toward Abraham Lincoln, who in later years told me that they would willingly cut off their right arms if they could blot out what they had said against him. It will be the same way with a lot of people who now are fit to say things about the speaker."

**Weak Lungs**  
 Ask your doctor to name the best family weak lung medicine for coughs, colds, bronchitis, croup, whooping cough, etc. It's Dr. Williams' Pink Pills. Follow his advice. It's the best.

## BOLL WEEVIL SERIOUS MENACE TO THE COTTON INDUSTRY

The boll weevil is undoubtedly the most serious menace the cotton planter has ever faced. Until it arrived there was apparently nothing to prevent a steady increase in cotton production amounting to the enlarging demands of the world as it was generally held that within the area now devoted to cotton raising there could be produced double the present crop. The bright outlook faded before the weevil although the earlier apprehensions of a possible abandonment of cotton raising as a result of its ravages have subsided. In 1892 the weevil was first known in this country outside of Texas and it extended northward over men of eastern Texas and in October of that year it established isolated colonies in Louisiana. By 1900 the enemy had entered nearly all the cotton counties of Texas, and overran Louisiana and was present in parts of Oklahoma and Arkansas and it has since invaded Mississippi.

Losses from the damage now being obtained from cotton in a large number of counties that were free from the weevil in 1892, but badly infested in 1902. The yield in the latter year was only 10 per cent as great as in the former.

The pest is hard to exterminate on a

scale of its habits and rapidity of growth and multiplication. As its name indicates the boll weevil hovers nearly all of its life in the form of the plant and cannot be a pest with persons. From early to mid stage requires but fourteen days, and a single pest will lay eggs in a cotton boll to reproduce 100,000,000 individuals.

Much good was expected from the introduction of the G. H. H. and in its own country, the natural enemy of the weevil, but this expectation was disappointed. However, known as *Solenopsis geminata*, and which travels up and down the cotton stalk, has taken issue with the weevil, first fighting him out as an interloper and later leading him out as an article of food. According to the Bureau of Entomology, *Solenopsis geminata* is responsible for the destruction of more than half the weevils that fell before their various natural enemies. Good results have followed the introduction of new material in the fall as from as possible after the last of the crop has been gathered, and by inducing speedy maturity of the following season's crop through early planting and the use of fertilizers. New means are being sought.

## HOW WOMEN ORGANIZED GREAT CONSUMERS' LEAGUE

Never has the "woman movement" been given more serious attention than in the articles which that energetic monthly, Hampton's Magazine, is printing under the editing of "What Eight Million Women Want." Hampton's was the first magazine to devote the Working Women's Society, accomplished by the United Women's Clubs of America. It is now taking up the problem of female help in department stores and shops. Says Rheta Childs Dorr in outlining the work of the Consumers' League:

It was just twenty years ago that New York city was treated to a huge joke. It was such a joke that even the miserable ones with whom it was concerned were obliged to smile. An obscure group of women, calling themselves the Working Women's Society, came out with the announcement that they proposed to form the women clerks of the city into a labor union.

These women said that the girls in the department stores were receiving wages lower than the sweat-shop standard. They said that a foreign woman in a downtown garment shop could earn seven dollars a week, whereas an American girl in a fashionable store received about four dollars and a half.

They also charged that the city ordinance providing seats for saleswomen was habitually violated, and that the girls were forced to stand from ten to fourteen hours a day. They said that the sanitary conditions in the cloak and lunch rooms of some of the stores were such as to endanger health and life. They said that the whole situation was so bad that no clerk endured it for a longer period than five years. Yesterday they proposed a labor union of retail clerks as the only possible resource. Their effort failed.

A group of rich and influential women, prominent in many philanthropic efforts, became interested in the Working Women's Society. They investigated the charges brought against the department stores, and what they discovered made them resolve that conditions must be changed.

In May, 1890, the late Mrs. Josephine Shaw Lowell, Mrs. Frederick Nathan and others entered a large meeting in Chickering Hall. Mrs. Nathan had a constructive plan for raising the standard in shop conditions, especially those affecting women employees.

If women would simply withdraw their patronage from the stores where, during the Christmas season, women and children toiled long hours at night without any extra compensation, sooner or later the night work would cease. Mrs. Nathan said Mrs. Nathan maintained a standard above the average. It was within the power of the women of New York to raise all the others to that standard, and afterwards it might be possible to go further and establish a standard higher than the present highest.

"We do not desire to blacklist any firm," declared Mrs. Nathan, "but we can white list those firms which treat their employees humanely. We can make and publish a list of all the shops which employ women on fair treatment, and we can agree to patronize only those shops. By acting openly, and publishing our White List we shall be able to create an immense public opinion in favor of just employers."

Thus was the Consumers' League of New York ushered into existence. Eight months after the Chickering Hall meeting the committee appointed to co-operate with the Working Women's Society in preparing its list of fair firms had finished its work and made its report. The new league was formally organized on January 1, 1891.—From Hampton's Magazine for December.

## KING EDWARD TO ARBITRATE CLAIM AGAINST CHILE

SANTIAGO, Chile, Nov. 26.—William Pierpont, American charge d'affaires made a proposal to the Chilean government today that the Alsop claim be submitted to the arbitration of King Edward, who is friendly to both sides.

The proposal was accepted and the two countries will ask the British monarch to act as arbiter.

## SHIPPERS COMPLAIN OF LOADING CHARGE

SAN FRANCISCO, Nov. 26.—The unloading and loading charges of twenty cents a ton made by the Southern Pacific and Santa Fe railways were attacked today before Reference James Brown of the Interstate Commerce Commission by Schultz Hanson & Co., a shipping firm of this city.

In the suit, the shippers pleaded for the annulment of the charge on the ground that it was unjust and illegal. In their argument the companies assert that under the provisions of the Hepburn act they are compelled to make the charges.

James McNair, the first witness on the stand, testified that the same charge was made against him when he unloaded goods from the cars of the companies concerned as when the employees of the railroads did the work. Other witnesses representing the local traffic association testified to the same effect.

## ARE UNEMPLOYED MANY IN NEW YORK?

Question Is Made a Matter of Argument in English Politics, Because of Budget.

SEATTLE, Nov. 26.—Robert S. Lovett, president of the Union Pacific and Southern Pacific railroads, visited every part of the \$15,000,000 terminal property of the Union Pacific in Seattle today. President Lovett arrived in a special train and will leave for San Francisco tonight.

President Lovett's party includes Julius Kruttschnitt, director of operations; J. C. Stamba, director of traffic; W. W. Cotton, general counsel of the Harriman lines in Portland; G. W. Roschke, chief engineer of the Oregon Railway and Navigation Company in Portland; and J. P. O'Brien, president and general manager of the same company.

**WASHINGTON LIQUOR LAWS NULLIFIED.**  
 SEATTLE, Nov. 26.—The new state law which was supposed to forbid the ownership of saloons by brewers and distillers only makes it unlawful for them to pay for the licenses of saloons, according to Mayor Miller who signed today thirteen bills transferring to many saloons from the ownership of a brewing company to that of a holding company organized by the brewers. All others saloons owned by brewers will be simply transferred and the state law will thereby become a joke.

Seventy years of experience with Ayer's Cherry Pectoral have given us great confidence in it. We strongly recommend it for coughs, colds, bronchitis, weak throats, and weak lungs. It protects. It soothes. It heals. Just the help nature needs.

## No Impairment of Health By Milk If Our Pure Product Is Used

Milk when used alone as an article of food is consumed mainly by children and babies. They are more susceptible to disease as a rule than adults, and for this reason parents cannot be too careful in the selection of a milkman.

It is a fact well known to health authorities that impure milk is a source from whence many human ailments are acquired. You can be absolutely certain that there will be no sickness in your family through the milk route if you use our product exclusively. It is absolutely pure, rich and wholesome because it is the product of our own herd of 325 healthy cows, and because it is clarified by machinery of all impurities and is handled from cow to consumer in the most approved sanitary manner. Try it and see.

## Glasses for Overworked Eyes

How many hours per day do you use your eyes? Do you rest them during your noon hour, or do you read while lying down, or abuse them in some other way? Your body would break down if you worked its muscles continuously for such hours. Your eyes are far more delicate than your body muscles.

We make REST GLASSES, that supply just the help needed to build up ENERGY. You may not need them to wear all the time—just the ones to save your strength when reading, writing or sewing.

The future welfare of your eyes depend very largely on the CARE you take of them NOW. Chinn-Beretta Glasses preserve them by preserving their strength.

## Social and Club News

In the song recital of George Hamlin, which took place at the Parish Lecture Club auditorium last night, the Fresno Musical Club has added another treasured leaf to its memory book. Artists like Mr. Hamlin frequent our city too seldom to have their coming pass unnoticed and it redounds greatly to the credit of the club that such earnest appreciation greets the appearance of these distinguished visitors. Every seat in the auditorium was filled last night and if Mr. Hamlin had any reason to doubt the sympathy of his audience at his first appearance, that doubt must have been effectively swept away by the ovation that awaited his every appearance thereafter.

The club has never been privileged to welcome a more scholarly, refined artist than Mr. Hamlin, who breathes forth poetry simultaneously with the exquisite notes in his marvellously trained voice. As a song interpreter he ranks with David Hisspman, although he lacks the magnetic personality of that inspired singer.

To acquire the heights he has attained in art has never been the financial struggle or sacrifice that it has been to many singers, for it is told of him that he was born "with a golden spoon in his mouth." Fortune first and fame afterwards is not the usual

order of the tradition, for the very case that comes from fortune hinders big accomplishment. But George Hamlin was destined for big things and no one can doubt that he has worked for them. His voice is such a rare intelligence and a poetic imagination that give each song its particular character—not only for the singer himself but for his audience as well. This is indeed a rare gift.

It has never been the club's good fortune to hear a more beautifully selected program. It was composed entirely of English songs at the request of the club, which aims to have programs of English songs when possible. It would be difficult to find a program of more interesting variety of English songs. To hear them interpreted by a musician of Mr. Hamlin's accomplishment was added pleasure.

A beautiful cycle written by George Quiller, considered by Mr. Hamlin to be the club's most talented young song writer of today, was perhaps the most important number of the program, although a choice was most difficult. The words were collected from the poems of Robert Herrick, making a delightfully artistic song poem called "The Jubilee."

Another lovely group by Sullivan was taken from Tompkins' "Songs of

the Wrong" written at the request of the composer by the poet laureate. The first song of this fascinating group, "At the Window," was delightfully suggestive and brought forth the best of the club's singing. The second was the "Morning Hymn of 1800," which showed more clearly than anything else the singer's wonderful power of sustained tones and his perfect control, as well as his beautiful understanding of its meaning.

A vocal solo was given in the first group, which would have been decidedly incomplete without it. It was "The Transports," a call from a cantata and was a beautiful solo. A vocal solo was given in the first group, which would have been decidedly incomplete without it.

Mr. Hamlin's performance was a masterpiece of art. He is not only a perfect interpreter of the music, but he is a perfect interpreter of the words. He is not only a perfect interpreter of the music, but he is a perfect interpreter of the words.

Me and Mrs. H. D. Carver are making their plans to go abroad about the 1st of January. They expect to visit Mr. Carver's relatives in England and will travel on the continent. During their absence Mrs. Carver's two young daughters, Misses Estelle and Jane Gray, will go to Berkeley to attend Miss Gray's school for girls.

Mrs. Willie Pitts was hostess yesterday afternoon for the Friday Afternoon Club, the members enjoying a jolly round of exciting bridge. Mrs. Frank Shepherd was the prize for high score. Mrs. Lee Gray substituted for an absent club member. Mrs. T. W. Patterson will entertain the club next week.

Dr. C. C. Williams of Whittier is spending the Thanksgiving holidays with friends in Fresno. It is rumored that the doctor is building an attractive bungalow in the southern city, and society may expect news of a wedding before many months and the bride will be a Fresno girl.

Mr. and Mrs. J. E. Dickinson have invited their guests for a few days. Mr. Dickinson, who came down for the Fresno-Fresno football game on Thanksgiving day and enjoyed the attendant festivities.

Judge and Mrs. M. K. Harris expect to leave on December 2nd for Tennessee to spend Christmas with relatives in the South.

Mrs. Emory Danahoe has as her guest for a few weeks her mother, Mrs. Nicholas, who arrived from her country home at Tulare a few days ago.

Miss Elsie Hensley, daughter of Mr. and Mrs. G. W. Hensley, is spending the Thanksgiving holidays with her parents. Miss Hensley is a student at the medical college at Loma Linda and expects to remain with her parents until the middle of next week.

At the regular meeting of the Federated Trades Council last evening, the Empire theater on J street was placed on the "unfair" list. The attention of the council was called by the Fresno Theatrical Stage Workers' Union, whose representatives pleaded that Manager Ed Henson of the Empire had not lived up to his agreement with the union.

The constitution and by-laws of the union demand that at least two union men shall be employed on the stage of every first-class theater in the city. It is alleged that but one is employed by Manager Henson, the remainder of his help being non-union men.

**FAIR WARNING.**  
Bigga, fresh Mexican,  
Dat'sa you,  
Mebbe so da fightin' man  
You are, too,  
Mebbe so da boss for da "nash"—  
Grand style, playn'ta cash—  
Theekin' all da girls he know  
Wanta kees heem. Mebbe so  
Dat'sa you.

Justa teeth "dagman."  
Looka, see!  
Boss for dees peanatta stan,  
Dat'sa me.  
Mebbe so I wat you call,  
Nuffa monkey eatin' all,  
Just a lotta mouse dat na  
ture for fighta. Mebbe so  
Dat'sa me.

Gooda-lookin' fatta cheek,  
Dat'sa yours,  
Looka fat so small, so weak,  
Dat'sa mine.  
Lotta girl so good, so sweet,  
Passa by you on da street—  
Ahl you know her! She's Carol!  
Don'ta touch her! Better not!  
Dat'sa mine.

**Don't Be Bald**  
Almost Any One May Secure  
a Splendid Growth of  
Hair.

You can easily find out for yourself if your hair needs treatment. If it is thinning, getting dry, harsh and brittle, or splitting at the ends, you simply have to pull a hair from the top of your head and closely examine its root. If the bulb is plump and easy, it is all right. If it is white and shriveled, your hair is diseased and needs nourishment.

We have a remedy for hair troubles that cannot be surpassed. It has a record for growing hair and curing baldness in 30 out of 100 cases where used according to directions for a reasonable length of time. It will even grow hair on bald heads. If the scalp is not grazed and shiny. That may seem like a strong statement, but it is true. It is the only hair restorer that should be used until they have put our claims to actual test.

Why are we so sure that Rexall's "33" Hair Tonic will completely eradicate dandruff, prevent itching, stimulate the scalp and hair roots, stop falling hair and grow new hair, that we personally give our positive guarantee to refund every penny paid for Rexall's "33" Hair Tonic if it does not grow hair where it does not do so we give our claim of refund to give entire satisfaction to the user.

Rexall's "33" Hair Tonic is pleasant to use as clear spring water. It does not dry or burn the hair. We have it in two sizes, prices 50 cents and \$1.00. We urge you to try Rexall's "33" Hair Tonic on our recommendation and with our guarantee back. You certainly take no risk. Remember, you can obtain Rexall's Remedies in Fresno only at our store—The Rexall Store—The Monroe Drug Co.

## VISALIAN CHARGED WITH NON-SUPPORT

Wife Alleges J. A. Melvin Has Not Provided for Child for Seven Months.

VISALIA, Nov. 26.—James A. Melvin, a cabinet maker, was arrested today on a complaint of his wife, Mrs. J. A. Melvin, charged with failure to provide for their three-year-old child on a period of seven months. Melvin was arrested at 1:00 p.m. by Justice Clark, which he had not appeared late this afternoon and was still in jail. The charges are one for neglecting the superior court. The date for the preliminary examination has not been fixed.

J. D. Hall, a young man, has been arrested at the instance of J. W. Beth, manager of the local plant of the California Fruit Canners' Association, who claims that Hall rode up on his side walk on a motorcycle, stopped, pulled out a pistol and shot at a dog. The charge against Hall is one of shooting within the city limits. There are two other charges that may be filed against Hall, one for carrying a concealed weapon and another for riding on the sidewalk.

The Salvation Army is preparing to distribute between thirty and forty Christmas baskets among the poor of the city. There will also be a Christmas tree for the young ones at the hall.

The rainfall for the season was .201. This completes a total of .242 for the season to date.

Court Clerk Oak, Independent Order of Foresters, met tonight and adjourned several candidates for a supper was served after the ceremonies and a social time followed.

A party consisting of Mrs. Ida Toague, Miss Olive McQuinn, Miss Norma Carstons, Miss Emma Steinhilber and Miss Shedd attended the performance of "The Man of the Hour" in Fresno on Wednesday evening.

Miss Louisa Gilbert entertained this afternoon in honor of Miss Dorothy Cross, Fresno and recently of this city. The time was spent very pleasantly at five hundred. Delightful refreshments were served.

Those present were: Mrs. Katharine Stahl, Miss Margaret Smith, Miss Ella Barkins, Miss Emily Stewart, Miss Ella Bath, Miss Gladys Senter, Miss Florence Weatherhead, Miss Louise Kellmeyer, Miss Helen Wallace, Miss Ruby Dent, Miss Bessie Jones, Miss Leona Jones, Miss Virginia Perkins, Miss Leona Jones, Miss Leona Jones, Miss Vera Thompson, Miss Ruby Gannon, and Miss Nathalia Cole.

Mrs. Gus Holmes and Miss Margaret Miller assisted in entertaining. The high school students enjoyed a dancing party at the Steuben hall tonight. There was a large attendance and an enjoyable time was had.

**ANIMAL SUPERSTITION.**  
The natives of the island of Bali, in the Dutch East Indies, have peculiar superstitions about animals. Dogs, for instance, are never destroyed, and much to the annoyance of the European residents, are an unlimited allowed to increase to an unlimited extent. According to Balinese ideas, dogs are the reincarnation of those of their poorer brethren who were buried after death instead of being cremated, which is the more luxurious method of getting rid of the dead. To kill a dog, therefore, is as great a sin as killing a poor fellow-creature. With regard to the tiger, the natives believe that that animal is also the reincarnation of another caste of the community, and nothing will induce them to shoot it.

They tell, with great impressiveness, the story of an old Balinese man who once came face to face with a tiger in the jungle. Gazing at the monster, he addressed it as follows: "What have I done to thee that thou shouldst so ferociously attack me? Have I ever done thee any harm? And art thou not my brother and in the skin thou art my brother's skin? Go thy way in a tiger's skin, and leave me alone." Thereupon, it is said, the tiger turned tail upon him, and walked majestically into the depths of the jungle.—Wide World Magazine.

**Two Snails Pull a Pound.**  
One day, by way of experiment, I harnessed two common garden snails to a toy gun carriage to see if they could pull it along. Although the gun carriage was heavy, of lead, the snails pulled it so easily that I loaded the body of the carriage with small shot.

The snails, however, were more than equal to the task. Anxious to test their powers still further, I attached a toy cannon, made of lead and brass, behind the gun carriage, but the snails and their additional load moved on with the same apparent ease.

Out of curiosity I decided to weigh the common gun carriage, and shot, and the common gun carriage found the total weight to be almost one pound. I venture to think this a very good load for two snails to manage. From the London Strand.

**JUST WEARING OUT.**  
Interesting was our call, though brief, at the humble home of Miss Wilcox, once a slave of great value because of her age and was alone with his dog sitting before a mere show-off of fire. In answer to our inquiries he said that he was just "wearing out." He was never too sick to work, but now his eyes are failing and he can scarcely see. He claims to be only waiting for the good Lord to call him home. And so who have known his life through history given by his restorer before and a much-needed rest to her such a life of service as that poorest old lady the following description would be understood by us in its true meaning.

"O, death, where is thy sting?"  
"O, grave, where is thy victory?"  
—A. Cornthorpe, M. A.

—Horse Case Correspondence Hart County News.

**LAWYER IN MANY ROLES.**  
A Martineque barrister has established a singular record by figuring as prisoner, magistrate, and advocate within the space of five hours.

He opened this eventful session by taking his place in the dock of the Fort de France police court to meet a charge of assault, and having succeeded in proving considerable provocation, he escaped with a slight fine.

While the next case was being heard he acted as one of the magistrates with indisposition.

The only available substitute was the belligerent barrister, who thereupon took his seat on the bench and helped to decide several cases. In the course of the afternoon the victim of indisposition recovered and the temporary magistrate resigned.

Functions in time to read for a client who had been sent the services some days previously.—London Chronicle.

**AN EMBROIDERED MAP.**  
A. Peterson, of the local office of the United States Shipping Commissioner's Department, has hanging on his office wall a map of Alaska which is something of a curiosity.

Like most things of an old school, it is a hardy man with a needle, and in the spare time at his disposal it took him ten months to make the map. It is all of silk embroidery, and nearly all the embroidery is done in different colored silks, and all the names are worked in. The map is complete in detail.—Seattle Times.

## HOGG'S FIRST BIG SALE

STARTS TODAY AT 9:30 A. M.

With the Largest Gathering of Bonafide Reductions Ever Offered in Fresno this Early in the Season.

In making our debut before the public with our first big sale announcement, probably many an eye will read our newspaper ads, and our circular that have not seen our new store.

To such we are comparative strangers and our statements may be doubted—"Only an advertisement" will likely be said a number of times.

But whether you attend this sale or whether you do not, we want you to distinctly understand and know that every assertion, intimation and price quotation we make in our sale announcements or our future advertising is just as fearless, honest, true and above board as if we were looking you square in the eyes.

Our sole aim and one ambition is to gain public confidence—now, suppose you called and found an advertisement misleading—we would gain nothing—lose your confidence and naturally your future trade.

If, in your opinion, any of the articles you purchase here are not as represented, we earnestly request a chance to make it right.

There is no reason why a customer should ever be lost if the customer will only see that they get what they want—it can be given as easily as not, and nothing is any bother to us if it results in your satisfaction.

## Crown Flour

Makes Wives Happy

Ask your grocer what kind of flour he uses in his own home.

When I was six and she was four, the middle.  
We used to play about the old red bridge.  
And often dig in sand for half the day.  
'Twas then we "made it spades" as one might say.

We quarreled bitterly once, as I recall.  
She said a word—'twas not polite at all.  
She said it thrice to make her meaning clear.  
We came to blows, we "made it clubs" I fear.

Long afterward we played at bridge.  
Lost all, yet played on, reckless of the cost.  
Then asked her, with the courage of despair,  
"A diamond may I make it—suit—take?"

She said a word; she said it very low.  
And only once; it didn't sound like "No."  
I was—and am—the happiest of men.  
For we have always "made it hearts" since then.

—Frank M. Bicknell in Smart Set.

**PASSING OF THE SEA CHEST.**  
The midshipman's "reluctance" made famous in the "Old Blue Boats" is the latest of the old naval institutions to be attacked by this reforming board of admiralty. When a cadet enters Osborne College he gets himself a sea chest, which also serves him as a wardrobe and general receptacle for all sorts of odds and ends during his period as a midshipman; and so it has always been. But the admiralty have come to the conclusion that the time-honored sea chest should be replaced by a small portable chest of drawers, and the captains of all ships carrying midshipmen have been asked to give their opinion upon the proposed change. In all probability the midshipman's sea chest will not much longer adorn the after part of his majesty's ships.—Pall Mall Gazette.

## HOLDS RESURVEY CAN'T CURE ERROR

Nor Defeat Conveyance Based on One Set Stakes.

Judgment Given on Disputed Notes Against an Absentee Defendant.

The decision was received yesterday from the appellate court in the first district affirming the judgment of Judge Austin for the plaintiff in the case of George W. Boal, as road commissioner, against W. J. Weir and appeal by the latter.

The action was by the former supervisor to abate a post and wire fence alleged to have been maintained by Weir on a public highway in Eggers Colony. Weir admitted that he put up and maintained the fence, but claimed that the fence is not on a highway but on his own land, the point at issue being the location of the section line between 23 and 25-13-21.

A singular suit of affairs was brought on the trial of the case in 1928, when the road commission was decided to the county by Eggers in June, 1888, prior to which the section lines had been located or attempted to be by Surveyor Louis Manuelli in 1886. County Surveyor Eggers made a survey along the east line of section 23 and found the redwood post at the southeast corner placed by Manuelli in his original survey. In 1926 Eggers had all of section 23 surveyed and plotted by Surveyor Truman, who subdivided the section into lots from 24 to 25 for Eggers Colony.

Authorities are pretty well united in the opinion that ordinary care on the part of the individual greatly lessens the danger of contracting consumption. So many cases of this dread disease have their origin in neglect of an ordinary cough or cold, that it is appalling to note the indifference with which so many people regard this common complaint.

At the first indication of a cold, steps should be taken to check it at once. For this purpose the following simple formula is highly recommended as being most effective. Mix together in a large bottle two ounces of glycerine, a half ounce of Virgin oil of Pine, compound pine and eight ounces of pure Whiskey. Shake well and take a teaspoonful four times a day. It is claimed by the French Chemical Co. of Cincinnati, who prepare the genuine Virgin oil of Pine compound, that this mixture will break up a cold in twenty-four hours and cure any cough that is curable.

# \$1,000,000

Dividends Paid Monthly

Few people realize the fact that notwithstanding the first oil well in California was drilled scarcely twenty years ago, yet today the state produces ONE-THIRD OF ALL THE OIL PRODUCED IN THE UNITED STATES AND ONE-SIXTH OF THE ENTIRE PRODUCTION OF THE WORLD. The oil industry in California produces more wealth than all the mines of the state combined and of any other single industry in the state. The oil companies operating in California are paying ONE MILLION DOLLARS IN CASH IN MONTHLY DIVIDENDS and today this state stands alone in the opportunity for investment in a profitable business for investment in oil-producing lands.

Another fact that will be a surprise to you is that in the past few California have taken advantage of this opportunity for investment with the result that of the millions of dollars vested in oil over 75 per cent. of it comes from Eastern Bankers and Brokers, which means that of the one million dollars paid monthly in dividends over seven hundred thousand dollars of this goes out of the state. That this condition exists can be attributed only to the fact that the opportunity for investment in the development of oil properties have not been called to the attention of California capital.

These enormous profits should be kept at home and that is why we are now bringing to your attention through the columns of our paper a few facts in reference to this great business which have heretofore been unknown.

We are publishing a monthly paper giving all of the up-to-date news which will be sent to you free of charge upon request. We have representatives in every oil field in the state and are therefore in close touch with this great industry, and we will gladly furnish information with reference to any land lease or company in the state. The information and advice which you will receive will come from those who have spent years in the study of the conditions in the various fields of the state and will therefore be in strict accordance with the facts. The stocks of several companies which we have recommended to Eastern Bankers and Brokers, have made them a profit of from two to five hundred per cent. in less than six months time. We have just recommended a stock that has failed to pay our clients large profits on the investment and you can therefore, rest assured that with this recommendation we are recommending a stock which we know to be absolutely good. Watch our next announcement in this paper.

Wilkes, Hayden, Kergan Company

423b Phelan Building, San Francisco, Cal.

## Coal and Wood

We have lately added a coal and wood yard to our business and would be pleased to have you investigate our prices.

Fassett Lumber Co.

TELEPHONE MAIN 157

and also found on that survey all the original stakes set out by Manuel Eggers treating the deed to the county as fixed and located by the original set stakes.

This survey was recorded. Weir afterward became the owner of Colony lot 32 and knew of the stake at the southeast corner of the section and of the south boundary of his lot which did not include the place where the fence claimed to be maintained. A furrow was at first run to mark the line of the road, but the road was not completely graded until 1905. During that year, at the request of Weir, and twenty years after the first survey, Manuel resurveyed the township and found an overlap of 39 feet, dividing this excess between the sections, so as to bring the line of Weir's place about 13 or 14 feet below the place where his first line of stakes lay; in other words, in the resurvey in 1905 he disregarded his original stakes and made Weir's south line 13 or 14 feet farther south than the line in the Eggers map, and thus took 13 or 14 feet from the section owned by Eggers and at the time conveyed to the county.

Under the above facts, the appellate court lays down four propositions: When land has once been surveyed with reference to stakes in monuments which were fixed and in place at the time of such conveyance, the latter cannot afterwards be defeated by a new survey which shows that stakes and monuments or originally were not, and that a matter of fact, in their true places.

It is always the endeavor of courts to ascertain the intention of the parties in applying the description contained in a deed to the monument referred to so as to locate the land with reference to the same.

Where a grant is made for a public highway entry upon and used as such, expending public money thereon, is an acquiescence in the survey, although the full width be not actually used.

The rule is entirely different from the construction given to the width of a right of way when the right of way is claimed entirely by prescription or user.

**ABSENTEE JUDGMENT.** Judge Church proceeded yesterday with the trial of the case of T. C. Huebner against George W. Cochrane, a veteran of Hamilton, despite a physician's certificate sent from Hamilton that he is ill with asthma and travel to Fresno under the circumstances was not permissible. Judgment went against the defendant for a total of \$100, with interest.

Of this sum, \$90 was claimed as the principal of two notes to be as many attorneys made on the same day, on the terms, written on the same type, and signed at the same time, at one place, and under the same answer. Cochrane denied the making of the note to Huebner while admitting the delivery to Attorney W. R. Miller of Hamilton, who assigned his note to Huebner seven days after the making of the note.

Attorneys Huebner and Miller had performed legal services in Kings county for the veteran in an action involving \$25,000 worth of land, and on October 10, 1929, he signed and executed a note promising to pay each year with 10 per cent. interest in six months. On the Huebner note \$45 was paid and on the Miller note \$20 before its assignment. Besides this Cochrane had paid \$100 from Huebner in January, 1929.

Regarding the denial of the making of the Huebner note and the payment on it, Huebner's theory is that Cochrane conceived the idea that the note had been lost and he could not find it in his pocket. This idea he gained from the fact that at their last interview in attempting to arrive at a settlement of this case, Huebner exhibited the Miller assigned note and made no show of the other.

As regards the Miller note, the defendant denied that it was given for any consideration received by him, but only to raise money for the court expense in the Kings county case, and as it was never negotiated nothing is due it.

Costs were represented in the case by attorney, who, when questioned by the court, the documentary evidence, the law on his hands and did not dispute judgment, stating that if there is any merit in the allegations of the answer it would have to be taken up on a motion for a new trial.

**ASKS ALLOWANCE.** Judge Scott asks the court to make a monthly allowance of \$100 for herself and child for support out of the estate of her husband, Walter J. Scott, late of Selma. That estate appraised at \$100,000, is represented by a note with a \$100,000 balance.

**HAS MONEY IN BANK.** Public Administrator Andrews has asked for letters in the estate of George Edwards, also known as Melville Stewart, who was shot and killed at Coalinga last Wednesday night. She had some \$500 in bank.

**AGAIN SET FOR TRIAL.** Trial has been set before Judge Church for the 9th prox. of the case of the Fresno Commercial Company against George W. Hopkins originally set down for hearing for Thanksgiving Day.

**MRS. WOOD'S SISTER DIES AT PARSONAGE**

Had Come to Fresno from Wichita, Kas., Hoping to Improve Her Health.

At the home of Mr. and Mrs. Charles C. Woods in this city, Mrs. Anna Martindale, sister of Mrs. Woods, died a little before 7 o'clock yesterday morning.

Mrs. Martindale, accompanied by her mother, came to Fresno from Wichita, Kansas, early in the autumn, hoping that a change of climate might restore her health. But in spite of the most careful nursing by her faithful mother and her two loving sisters, together with the best of medical skill, she constantly declined until the end came.

The body will be taken to its final resting place in Wichita, Kansas, accompanied by the mother, Mrs. W. J. Martindale, and a sister, Mrs. O. H. Robinson, where they will be buried by Rev. W. J. Martindale, the father, and other members of the family.

Mrs. Martindale was a highly gifted teacher with thorough university training and a beautiful Christian character. She bore her great suffering with brave heart of a Christian faith in which she had always lived. Her memory will be cherished by all who knew her.

**YOAKUM MAY BUY THE "FRISCO" LINE**

NEW YORK, Nov. 26.—In response to looking circles it was intimated today that negotiations for the sale of the St. Louis and San Francisco railroad to Benjamin F. Yoakum, chairman of the executive committee of the Chicago, Rock Island and Pacific Railway Company, were in process of consummation.

The St. Louis and San Francisco system, which was organized in large part by Yoakum, is controlled by the Rock Island company. It is believed Yoakum will turn control of the St. Louis and San Francisco over to E. W. Hawley, with whom he is already interested in various ventures. Mr. Hawley, however, controls the Chicago and Alton and Missouri, Kansas and Texas, both in a sense competing lines with the St. Louis and San Francisco.

## "THREE TWINS" HERE FOR TWO NIGHTS

Novelty Staging Feature of Production.

Victor Moore in "The Talk of New York" Comes Tuesday.

The "Three Twins," which comes to the Barton tomorrow night and Monday night is essentially a laugh producer, and yet that is far from the best part of it for the new staging.

Victor Moore in "The Talk of New York."

and the songs are splendid. The "Buddy Up a Little Closer, Lovey Mae" with its seven lines of riddle, is one of the most beautiful stage pictures ever produced.

The Yama Yama song, which created such a sensation in New York

at the Herald Square Theater, is another one of the many good things in "Three Twins" that it would require too much space to describe them all.

Of the many novel things in the most important are the dancing Yama Yama chairs, the face-ograph and the electric aerial swing. This swing is the largest aerial swing ever staged and weighs 400 pounds and is flung into the air by a motor.

The "Three Twins" comes with full prestige of a metropolitan success, having had a run of five months at the Whitney opera house in Chicago, and one year at the Herald Square Theater, New York.

George M. Cohan took advantage of the inherent and innate qualifications of Victor Moore for his new celebrated creation of "Kid Burris," originally introduced to the public in thirty-five minutes from Broadway, is now amplified and enlarged for Moore's starring vehicle, "The Talk of New York," which comes to the Barton next Tuesday evening, was a matter of remarkable accident or coincidence.

Mr. Cohan invented the character of Burris some four seasons ago for the piece that was to feature Pay Templeton as "Plant Murex." Like Charles Dickens' "Tom Pinch," the simplicity and goodness of heart were the principal assets of the "Kid." These traits, with a definite amount of the heroic spirit of self-sacrifice, were Mr. Cohan's own synthesis for the building up of the character.

Mr. Cohan was one elected to play the part, but with the outline of the "Kid's" nature, George Cohan made the personal acquaintance of Victor Moore. A warm friendship sprang up between the young author and the most famous stage expert. Moore was at that time playing a cannibal sketch with his wife. It did not take long for Cohan and his business partner, Sam H. Harris, to discover that the sides that Moore had there were naturally present those ornaments of individuality that make a man beloved by his fellows, and which were indispensable necessary for the exploitation of "Kid Burris."

With the exception of the comedy sketch, Burris, Moore practically plays himself. The seat, made for "The Talk of New York" opens this morning.

E. W. Robinson, late manager at Tucson Springs, has been for several years the building at 428 E. street, known as the Fresno Humana Baths, and will conduct a first-class place in that line of business.

Mr. Robinson is a graduate of the Battle Creek Sanatorium and an expert in all kinds of massage.

All are cordially invited to inspect the place, whether desiring anything or not.

Plans are being perfected to add a department for ladies in charge of a competent lady attending to a complete new management was secured that a long felt need will be supplied to the residents of Fresno.

**EX-MAYOR E. E. BUSH VISITS COALINGA**

In Excellent Health, But Will Remain Resident of the Southern Metropolis.

Among those in the party, which visited Coalinga yesterday from Los Angeles was Ed E. Bush, former mayor of Fresno. Mr. Bush is now living with his family in Los Angeles and stated yesterday that there is very little probability that he will ever become a resident of Fresno again.

He has completely recovered from his recent illness and is now enjoying excellent health. His physicians have told him, however, that if he should come back to the San Joaquin valley he would be obliged to go away again within a year.

**THE BEST INVESTMENT**

## BOYS RUN TWO MILES TO DELIVER MESSAGE

Vennora Taylor of Hawthorne School Wins Race of Grammar Athletic League.

"Fresno, Cal., Nov. 25, 1930. Superintendent of Schools, Fresno County.

"Thanksgiving greetings from the city of Fresno school department to the county school department through courtesy of the boys of the grammar school athletic league. (Sentiment for the loser as well as the winner.) Every boy who enters an athletic contest out of pure love for physical activity and sport wins a prize."

"C. L. McLANE, City Superintendent of Schools."

The above message contained in a paper tube was delivered yesterday forenoon to Mr. Lindsay, who, with Physical Director Fee, awaited on the court house steps the finish of the sprinting race of the boys of the grammar schools. The message was delivered by the first runner, who was Vennora Taylor of the Hawthorne school, and Francis Sullivan of the Emerson school, a close second.

The race was to have been run on Thanksgiving day forenoon, but the weather prevented. The race was for two miles over a given route from the city hall to the court house, starting shortly before 11 o'clock. The four grammar schools were entered in the race, each school represented by a team of fifteen lads. Race winner Taylor fell his besides to twenty pounds of peanuts and Sullivan, as a consolation, a box of apples. The race was a close one until the last two blocks, when the Hawthorne school boy took the lead and maintained it to the finish.

**EX-MAYOR E. E. BUSH VISITS COALINGA**

In Excellent Health, But Will Remain Resident of the Southern Metropolis.

Among those in the party, which visited Coalinga yesterday from Los Angeles was Ed E. Bush, former mayor of Fresno. Mr. Bush is now living with his family in Los Angeles and stated yesterday that there is very little probability that he will ever become a resident of Fresno again.

He has completely recovered from his recent illness and is now enjoying excellent health. His physicians have told him, however, that if he should come back to the San Joaquin valley he would be obliged to go away again within a year.

# GOOD CLOTHES THE "GOODMAN KIND"

When a man buys a suit or overcoat he appreciates the fact that if he buys a good garment it's going to give him good service and good satisfaction. Now this is our long suit. Quality is woven in every garment that this big store sells and that does not mean that the price is out of one's reach. Entirely different—a moderate selling price goes along hand-in-hand with our high quality clothing. You also can feel quite confident of getting a perfect fitting garment at this store whether your build is "regular" or not. We have a wide assortment of clothes for any build of man.

All suits purchased at this store kept pressed free of charge. We have our own tailor.

## MARINES READY FOR NICARAGUA

Secretary Meyer of Navy Reviews Men at Philadelphia; Princeton Sent South

PHILADELPHIA, Nov. 26.—Secretary Meyer came here today from Washington and reviewed at the Philadelphia navy yard the marines who will sail tomorrow on the transport Pacific for the Panama canal zone for, possibly, Nicaragua.

The Pacific was placed in drydock today, it having been discovered that one of the propeller blades had been slightly bent. This defect will be remedied and the vessel will be ready to sail on time.

The marines were originally scheduled to be reviewed early in December when they were to sail but because of the Nicaraguan situation it was decided to send them south now.

WASHINGTON, Nov. 26.—The gunboat Princeton today was ordered by the navy department to sail for Corinto, Nicaragua, to join the gunboat Vicksburg at that port. The Princeton is at the Bremerton navy yard undergoing repairs.

On her way down the coast the Princeton will stop at San Francisco.

Some time ago it was arranged that the Princeton should relieve the Vicksburg in the west coast of Central America, and it is in conformity with this plan that the Princeton is now ordered to Nicaragua.

The Vicksburg, however, will remain at or near Corinto until peace is restored.

WASHINGTON, Nov. 26.—The state department is still without information from the American vice consul at Managua, and it is supposed his dispatches have been intercepted.

The department has no doubt Caldera has attempted to communicate with it several times during the last week or more.

During the absence of specific information the officials here undoubtedly will delay further action.

A dispatch received from Bluefields states that there is being expected to protect American interests. The dispatch adds that the steamer Itasca, belonging to the Bluefields Steamship company, of the local line, is being held up by a week ago, was detained only one day and that such detention was only for the purpose of examining the vessel with a view of ascertaining whether the carried contraband goods.

**VOLCANIC ERUPTIONS LESS ON TENERIFE.**

SANTA CRUZ, Tenerife, Nov. 26.—Volcanic eruptions are diminishing. One of the craters has ceased activity. The lava has divided into six streams, but is advancing slowly and will not reach Santiago and Teror for several days.

## QUEER DISCOVERY IN FARTHER TIBET

Explorers Find Caves of a Prehistoric Race, and Cattle Governed By Woman.

LONDON, Nov. 26.—Immense cave dwellings of a prehistoric race, a colossal elephant of bronze, a valley which is a garden of Eden, canals, tribes, poppies with flowers, eight tribes in helmets, and a huge castle governed by a woman chief are among the queer discoveries which have been made by a British expedition to the hitherto unknown borderland between China and Tibet.

The expedition, headed by H. Mearns, A. A. Brooke and W. M. Fergusson, unfortunately, the expedition ended in disaster, for after the explorers had separated Brooke was murdered by a tribe of savages.

Mr. Mearns has now returned and gave a thrilling account of his adventures yesterday.

The main object of the first part of the expedition, he said, was to visit the unknown region near the Chinese-Tibetan border, which had been touched on the outskirts by one missionary, but which no one until our visit had succeeded in entering. It is inhabited by a dozen semi-independent tribes, and we were so successful that we started on a second journey into the almost unknown land of the Lolo, our ultimate object being to get to Rima, a mysterious place which has long been the desired but unattained goal of explorers, and which is of much interest to the Indian government for political reasons. Rima is known to be approachable only through a dangerous and cannibal region.

The people were intensely suspicious. Rumors had reached them of some mysterious expedition into the other side of Tibet, and, although they offered us no bodily harm, they refused our provisions.

**FIND A WOMAN CHIEF.**

At the capital of the Lolo tribe we found a huge castle perched on an almost inaccessible crag and governed by a woman chief. The lady refused to see us or let us in, but we were provided with a house outside, and remained for some time giving medical aid to the people.

We next made our way southwest over a very high pass, where our people were all down with mountain sickness, and where we discovered some wonderful poppies with flowers eight inches in diameter, which we sent home to Kew.

At Doudou, the center of another unknown tribe, we were received with cordiality, and festivities were arranged in our honor, but these were brought to a sudden termination owing to a raid by a neighboring tribe. Soon afterward we arrived at the Kerner river, which we crossed by means of leather coracles, a type of craft we had never before seen in China. The valley of the Kerner was followed through a country of surprising loveliness, abounding in parrots and butterflies of every color.

**MESSAGE AS A GUARANTEE.**

Part of the expedition struck westward into a land of round robbers. At Yaka W. M. Fergusson, who was with Mr. Brooke, spent three days in messaging the chief, and the latter was so pleased at the success of the treatment that he gave the travelers passports through his domain.

At Mungon, the principal Chinese outpost. After this we returned to Chentu and set out on our second trip among the unknown Lolo, an expedition that had so disastrous a result.

We first visited the sacred mountain of Omel Shan, a celebrated pilgrimage place for Buddhists from all parts of China and Tibet. Half way up we saw a colossal bronze elephant which was supposed to have been brought all the way from India.

Near here we thoroughly examined a number of remarkable cave dwellings, and found many interesting objects, including figures of men and animals. None of these caves, of which there were an immense number, had been studied before, probably owing to the superstitious fear with which they are regarded. Even the guides who were with us would not venture near the caves.

We could find no traces of human remains, but the figures we discovered showed evidence of a very high and ancient civilization. No one of whom we inquired knew anything about the original dwellers, but we formed the conclusion that the place had probably not been inhabited for a thousand years.

There were fireplaces in all these caves, and there was clear indication that they were intended to be habitations of the dead and the living at the same time.

**COULD NOT GO TO GALE, BOY HANGS HIMSELF**

DES MOINES, Nov. 26.—Harold Perkins, aged 16, who hanged himself to his bedroom door yesterday afternoon after having been Dr. Drake-Amos mission to attend to his father's funeral, is believed expected his aunt to discover him and cut him down before he died. His neck was broken, however, in the jump from the chair. He was found by his 3-year-old brother.

**MAKES NEW RECORD ON THE TYPEWRITER**

ST. JOSEPH, Mo., Nov. 26.—At a meeting of the Missouri Valley Commercial Teachers' Association today, H. O. Blaisdell of New York made a new world's typewriter record, writing 1555 words, from copy he had written before, in 15 minutes. This was a little more than 100 words a minute. The previous high record was 95 words a minute.

**CASE AFTER CASE**

Plenty More Like This in Fresno. Scores of Fresno people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is one of them. When better proof of merit can be had than such endorsement?

Henry Martin, 1135 L street, Fresno, Cal., says: "When I began using Doan's Kidney Pills, I was suffering, and had been for over a year, from a most annoying case of kidney trouble. The kidney secretions were scanty, but there was a frequent desire to void them. My back ached constantly and at times was so painful that I could hardly stoop. I also had attacks of dizziness. I finally read about Doan's Kidney Pills and as they were highly recommended, I procured a box at Baker & Colson's drug store. The relief that followed their use was gratifying. The kidney secretions became normal, the backache and pains entirely left me and I am now in good health. It gives me pleasure to endorse Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## ROOSEVELT WRITES OF PEABY'S FEAT

NEW YORK, Nov. 26.—A letter from Theodore Roosevelt was received by Secretary Bridgman of the Peary Arctic Club today, reading as follows: "On Safari, north of Mount Kenia, Sept. 22, 1909."

"Dear Mr. Bridgman: Your cable has just been brought me by a native runner here in my camp by the Gussie Nyiro. I am writing Mrs. Peary and to Captain Peary, I have no idea where he is. I am inexpressibly rejoiced at his wonderful triumph, and proud to be measured as an American, that this—one of the great feats of the age—should have been performed by a fellow countryman of ours. It is the great feat of our generation. We are Captain Peary's debtors, all of us who belong to civilized mankind."

"Faithfully,"

(Signed) "THEODORE ROOSEVELT."

## ALASKAN RAILWAY READY FOR TRAINS

CORODOVA, Alaska, Nov. 26.—The Copper River and Northwestern Railroad will begin to operate trains to the mouth of the Tlietli river, 102 miles from Cordova, December 1st. The first fifty-four miles of the road cost \$5,770,000, there being completed twelve bridge spans across the Copper river, aggregating 4700 feet of steel and 2000 feet of wood, at the front station men are employed at the front now and more will be added as soon as supplies and material can be delivered.

Winter headquarters has been established at the junction of the Tlietli and Copper rivers where the Fairbanks trail begins. No attempt will be made to lay rails until March. Several hundred men are at work on the \$2,000,000 cantilever bridge of the Miles Glacier. Trains will be operated across the mile bridge, August 15, 1910, and to the bonanza copper field December 1, 1910. The entire cost of the road is estimated at \$20,000,000.

## ENTERS ECUADOR DESPITE RULES

GUAYAQUIL, Ecuador, Nov. 26.—Archer Harmon, president of the Guayaquil and Quito Railroad Company, entered this port today in defiance of the port authorities.

Harmon arrived on the yacht Cavalier from Panama, but the yacht's captain was unable to exhibit clearance papers. Accordingly the officer of the port refused to permit the railroad man to land. Harmon landed just the same and boarded a train for Quito.

Harmon became involved in a dispute with President Alvaro two years ago because he had failed to complete the construction of the Guayaquil and Quito line within the time specified. The matter was finally adjusted and the road opened a year later.

## PERMITS BUILDING OF VENEZUELAN LINE

HAVANA, Nov. 26.—President Gomez today signed a decree annulling the action of the city council of Cienfuegos, which forbade entrance into the city of the Cienfuegos, Palmyra and Cruces railroad. The railway is being pushed to completion.

## LINOTYPE OPERATORS STRIKE ON EXAMINER

LOS ANGELES, Cal., Nov. 26.—A dozen of the linotype operators employed by the Los Angeles Examiner walked out tonight. Others remained at the machines and the places of others who walked out were filled by men in other mechanical departments. The trouble said to be directly within the question of hours of employment, the men who quit having demanded that seven and a half hours constitute a day's work, while those who remained were satisfied with eight.

## MUST IMPROVE RAILWAY.

TOPEKA, Kan., Nov. 26.—The State Board of Railroad Commissioners is today on order today to the Missouri Pacific to put its line in Kansas in better condition by the close of the year 1910. This order followed the conference between Governor Stubbs and officials of the Missouri Pacific and is based on letters written to the board, stating the intended improvements.

## NORWAY LINE COMPLETED.

CHRISTIANIA, Nov. 26.—The new railroad between Bergen and Christiania was inaugurated today with a grand banquet at which King Haakon was a guest. The line completes the system between Christiania and Bergen and the North Sea. It has occupied fifteen years in construction.

## CAUGHT IN CONNECTICUT.

NEW HAVEN, Conn., Nov. 26.—Samuel and Simon Perlman were arrested today on complaint of the Los Angeles police. The men are charged with the theft of \$12,000 worth of diamonds from J. Ross McKenna of Los Angeles. It is said that they will fight extradition.

## CONVICTIONS SECURED UNDER POSTAL LAWS

SAN JUAN, P. R., Nov. 26.—The criminal term of the federal court is today taken up with the cases of offenders against postal laws. Eight verdicts of guilty and one of disagreement have resulted. The disagreement was in the case of the weekly paper El Carnival, charged with printing indecent caricatures.

## PROMINENT OKLAHOMAN DIES.

TULSA, Okla., Nov. 26.—Joseph E. Johnson, engraving clerk of the Oklahoma constitutional convention and formerly chief clerk of the federal land office at Tulsa, died today.

## BLOWN UP BY DYNAMITE.

SPOKANE, Wash., Nov. 26.—Lewis Frederick, a foreman for contractors, was blown to atoms by a stick of dynamite which accidentally exploded in his home this afternoon.

Frederick was superintending the placing of the sticks of dynamite close to a furnace.

## CURAN DIPLOMAT.

HAVANA, Nov. 26.—The nomination of Mario Gari Kohly as Cuban minister to Mexico was confirmed today by the Senate.

## WOMAN IS INDICTED.

CINCINNATI, Nov. 26.—An indictment was returned by the Hamilton county grand jury today against Mrs. Jeannette Stewart Ford, whose name has been mentioned in connection with the shortage of \$643,000 in the accounts of Charles L. Warren, former local treasurer of the Big Four railroad.

The indictment charges Mrs. Ford with receiving funds alleged to have been stolen from the Big Four by Warren.

Warren was brought from jail to testify against Mrs. Ford before the grand jury.

## MAKES HER DEBUT.

WASHINGTON, Nov. 26.—Miss Frances Noyes, daughter of Mr. and Mrs. Frank H. Noyes, made her debut in society here today at a tea at her parents' home on Vermont avenue. Those in the receiving party included Misses Mark Landreth of Philadelphia, and Myra Hall of San Francisco, cousins of the debutante.

You men who care what you spend for clothes; you men who don't care as long as you get the right thing; you young fellows who want top style without top-price; this store is the place for all of you.

TEN YEARS FOR BANKER. MADISON, Wis., Nov. 26.—Phil Allen, Jr., former vice president of the First National Bank of Mineral Point, Wis., appeared before Judge Sanders in the United States district court today, pleaded guilty to four out of twenty-six counts in the indictment against him and was sentenced to ten years in the federal prison at Fort Leavenworth, Kansas.

BATTLESHIPS FOR CADETS. WASHINGTON, Nov. 26.—For the first time in the history of the United States naval academy, midshipmen will have the use of summer of three battleships for their annual practice cruise. Acting Secretary Whitthrop today assigned the Iowa, the Indiana, and the Massachusetts for this service. This will enable embryo officers to take an extended sea-service.

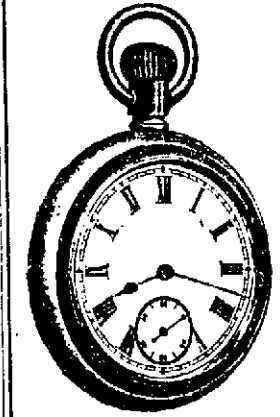

TROUBLE WITH SWITCHMEN. WASHINGTON, Nov. 26.—A serious controversy has arisen between the Switchmen's Union of North America and the officials of nearly all of the railroads operating to and from St. Paul and Minneapolis. It is probable that Chairman Knapp of the Interstate Commerce Commission and Dr. Neill, commissioner of labor, will try to adjust the trouble.

## JAPANESE GUESTS OF RAISIN CENTER

Commercial Commissioners  
View Vineyards.

Dr. Minami Says Raisins  
Are Too High in His  
Country.

Two members of the distinguished party of Japanese commercial commissioners from Japan were present at the Raisin Center yesterday. The visitors, Dr. Takamasa Minami and Dr. Torajiro Watake, were formally entertained by a special reception committee of Mayor Bowen, A. L. Hoops and George Robertson, president and secretary of the Chamber of Commerce. Automobile trips through the surrounding country, luncheon at the Hughes and visits to Redding's nursery, Redding Park and the packing house, distinct constituents of the program, the Japanese leaving at 3 o'clock for San Francisco.

Dr. Minami is a professor at the agricultural college of the Northeastern Imperial University, Hokkaido, Japan. Dr. Watake is president of the Tokyo Fruit and Vegetable Exporting company of Tokyo, Japan. He is an expert on agricultural and viticultural products and is one of the largest exporters of Japanese plants in the land of the rising sun.

The commissioners are members of a party of forty-six of the foremost business men from the principal shipping points of Japan. The party is headed by Baron Shibusawa, president of the Daiichi Bank of Tokyo, and Baron Nakamura, member of the House of Representatives and president of the Tokyo Stock Exchange and Chamber of Commerce.

Forty-four members of the party passed through Fresno Thursday night on the Santa Fe in a big special flyer, consisting of seven elegantly furnished cars, one of these cars won first prize

at the St. Louis Exposition and another took the grand prize at the Seattle fair. Owing to illness, Baron Shibusawa did not stop off in Fresno as planned, but continued to San Francisco. Mrs. Minami and Watake expressed much regret yesterday that the Baron was unable to witness the beautiful sights they had the pleasure of seeing here.

The reception to the two commissioners began early yesterday forenoon. Seated in Mayor Bowen's automobile, they were taken to Kearney Park, via the famous Kearney drive. In another machine, driven by E. R. Waterman, were Dr. Kuni, pastor of a local Japanese church, Yasutaro Mori, editor of a Japanese paper published in this city, and President Hoops and Secretary Robertson of the Chamber of Commerce.

The distinguished visitors expressed their admiration for the Kearney drive, the surrounding vineyards and alfalfa lands, arriving at Kearney Park, the Japanese quarters were visited, and the professors shook hands with the workmen, greeting their countrymen cordially. Every section of the space, now grounds was visited and a trip to the top of the tower, situated at the gateway, was also on the program.

From this point of vantage the surrounding country was viewed. The clear and bright sunshine after the storm gave an unobstructed view and the Japanese seemed to enjoy the lightness of the air. En route to the city, Professor Minami asked the mayor to stop his car while he secured a photograph of a vineyard in the Madison district. Alighting from the machine the mayor and the commissioner inspected one of the vineyards, the mayor explaining the process of pruning the vines, most of which is done by Japanese workmen.

At 1 o'clock a daily luncheon was served at the Hughes. Then followed a trip to Redding Park, where Dr. Watake expressed much interest in the hundreds of more species of shrubbery and trees. The Paucker Creek nursery was viewed and this interested them a great deal. Dr. Minami noted in his handbook some of the plants that particularly attracted his attention. Dr. Watake explained that some of the plants that sold here for from \$1.50 to \$2 were exported by him for 5 cents each. Dr. Watake was a visitor to Fresno eight years ago and had the pleasure of meeting George C. Redding at that time.

Returning to the city, the Redding packing and the Hoops rafter park-

ing houses were visited, the commissioners being presented with a case of figs and some choice raisins. The Japanese Association of Fresno also presented its distinguished countrymen with a large box of raisins, the goods having been shipped to San Francisco by express.

At the conclusion of the sight-seeing, the mayor, President Hoops and Secretary Robertson were each presented with a badge, bearing the special design of the honorary party. Just before his departure, Dr. Watake made a brief speech from the platform of his car, thanking the committee for the warm reception tendered them. "Our visit here has been very short, but, nevertheless, what we have learned today will be invaluable material. Our visit to this country is in the interest of international trade relations and to view the agricultural resources of the United States," said Dr. Watake.

After a visit to Santa Rosa today and the University of California Monday, the party will sail for home. The itinerary has included every large city in the United States.

Commenting on an article that appeared in the Republican some time ago on exporting raisins to Japan, Dr. Minami said: "Certainly, raisins are a most ideal refreshment for tea. We all like them and as there are no raisins in Japan, the amount imported from America increases steadily. But the price is so high that raisins can hardly reach the people of moderate means. Raisins retail over there at from 10 to 30 sen (25 cents) a pound of raisins, so it comes this is a waste, then, in sure raisins will become popular."

## SCOLDING TONGUE IMPAIRED HEALTH

So Said Mr. Martin, But  
Wife Gets Divorce.

She Proved Desertion, Husband Didn't Contest;  
Right-of-Way Suit.

Judgment on her amended complaint for divorce was awarded by Judge Austin to Mary E. Martin from William J. Martin, a mining man, asking also for a division of the community property and \$10 a month alimony.

Practically all the case to go to judgment by default. The case was interesting not so much for the showing made by the wife as for the extraordinary tale told by him in answer and counter-claim. Their marriage took place here on October 27, 1903, and he deserted her in January, 1908, while they were living at 823 J street. For both this was their second matrimonial experience.

While he denied the fact of desertion, considered in his legal aspects, he admitted that he left her then and that he did so to prolong his life, ingeniously pleading that since separation his health had materially improved by reason of that absence from her. In his cross-complaint he pictured himself as a man mild and retiring disposition and not at all robust physically.

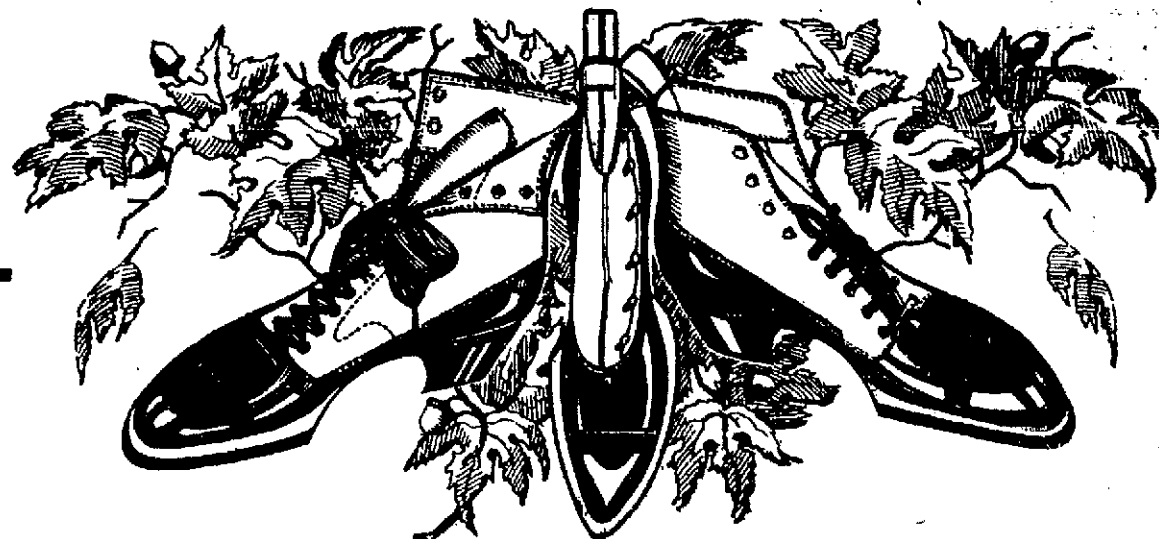

Mrs. Martin was pictured as a passionate woman of violent and ungovernable temper, who "lax the tongue of a shrew and a vocabulary of foul and profane language," all of which eccentricities of character and disposition he declared were artfully concealed from him before their marriage. He cited several instances when he was "deluged" with "a torrent of virulent scolding, abuse, stratagem and ill-nature," and this having occurred so frequently during their married existence his health had become impaired by reason of the mental suffering, and he left on a mining enterprise and as justification for having stated that his health had appreciably benefited by reason of the absence. The cross-complaint asked for divorce on the ground of cruelty.

In her complaint Mrs. Martin stated that she had turned \$700 of her money to him to support the family and besides as community property she said there was \$235.43 cash, lots 15 and 16 in block 6 of Windsor Terrace valued at \$1000, also a \$500 homestead interest and that in drawing \$2200 from the bank he also possessed himself of community property under which he had classed everything save the \$700.

On this score Martin answered that she never had more than \$500 when he married her and she never gave into his hands more than \$400 but out of this he paid himself \$45 rent due him from her, that he paid out \$135 in 1907 for house and tuition for his son James, and the remainder in 1908 and 1909 for the support for five months of Blattle Lake, married daughter of the wife, and her four children, also another married daughter, Myra Stevenson, with two children, and the two sons, James and Ira. By the wife's former marriage, contributing for this support of the family more than \$304 of his own money besides.

Delving deeper into financial matters, he showed she invested \$30 of his money in a horse and kept the \$70 realized on its sale, that in November, 1907 he sold a ranch for \$4000 and after paying his debts amounting to \$2500 was left \$1500 of which \$2349 was expended in her behalf and \$1000 to buy the Windsor Terrace lots. He admitted having drawn \$2000 in January, 1908, but said it was his right to do so because it was the selling price received by him for a 240-acre ranch, his separate property, while as to the homestead interest that was his property 16 years before the marriage.

The desertion was denied but the explanation was offered that he had mining claims in Kern county in which he has been doing assessment work for nine years and that he did draw the \$2000 to develop it but did not locate the mineral vein. He denied also that at the time of instituting the divorce action she was a resident of Fresno but asserted that she was in fact and legally a resident of

## The Greatest Shoe Sale in the History of Fresno

Starts this morning at 9 O'clock, at the Reliable Shoe Store  
Groves & Chase's \$10,000 Stock of Shoes on Sale at 50c on the Dollar

## Ghirardelli's COCOA

Always pure and wholesome. Made from the best beans the earth yields.

Don't ask merely for cocoa—ask for Ghirardelli's.

### Cocoa Fact No. 20

After being roasted, cocoa beans are thoroughly cleaned in rotating sieves and then by means of powerful electric motor fans, all dust and other particles are driven away before the cocoa is ground up. This is done to insure a perfectly pure product without even accidental adulteration.

THE THANKSGIVING RUSH IS OVER, BUT

## HOLLANDS'

are still baking Ideal Bread and pastry in as great quantities as ever.

The "staff of life" as represented by Ideal Bread is enjoying an ever increasing popularity. There must be some good reason why it is bread business has increased from a few hundred daily at first till now the capacity of the ovens are overtaxed, with crews of bakers working day and night.

The answer is the never failing uniform goodness of the bread, made so by skilled labor and the use of the best materials only.

### Cakes

Select your Sunday cake from this list, baked and delivered fresh this afternoon:

LAYER CAKES — Chocolate, Lemon, Caramel, Pineapple Cornnut, Peach, Nut, Raspberry, Apricot, in 25c 40c and 50c sizes.

Whipped Cream Puffs Today.

Loaf Cakes, 10c, 20c, 30c and 40c.

GLUTEN BREAD—We are the only bakers in the valley. The genuine Gluten Bread in the valley. Recommended by leading physicians of Fresno as beneficial for dyspepsia and others desiring an easily digested bread. Fresh every Wednesday and Saturday.

### Vegetables

Order your vegetables early this morning while stocks are complete. Here are a few of the many varieties we will have today:

Artichokes, Celery Root, Green Pear, Green Lima, Red Cabbage, Endive, Sprouts, Oyster Plant, Rhubarb, New Potatoes, Spinach, Hubbard Squash.

All kinds of fruits in season, including Apples, Oranges, E. nanges, Grapes, Cucumbers, Persimmons and Grape Fruit.

Sore Throat and Stiff Neck

quickly relieved by Dr. Geo. Ruz's

Romany Oil

the greatest remedy in the world for all kinds of inflammatory swellings. This famous remedy has cured hundreds of cases of the most painful and stubborn character, originally made from an old gypsy formula, successfully used in this country for many years. Great cure for rheumatism and lumbago.

# GERMAN AERONAUTS KILLED IN A FALL

## Balloon and Two Bodies Found in Austria-Hungary 600 Miles from Berlin.

BERLIN, Nov. 26.—Dr. Brackmann and Hugo Franke, the two next surviving members of the Aero Club of Berlin, have been killed through the collapse of their balloon "Kolmar".

Their bodies were found today near Pluma, Austria-Hungary. A note by the bodies was found in the envelope telling the story of their death.

Brackmann was the third person to insure his life with the newly formed company which takes air navigation risks. He was connected with the charity hospital at Berlin and Franke was an architect. Their aerial exploits had attracted much attention.

They ascended on Monday from a suburb of Berlin. The point at which the bodies were found is on the northern edge of the Gulf of Quarnaro, at the northeast extremity of the Adriatic Sea and in an almost direct line 600 miles south of Berlin.

# PURSUES FRENCH TRIBESMEN.

MELILLA, Morocco, Nov. 26.—General Marins has left at the head of a considerable force of Spanish troops with the intention of surrounding Mount Bon-Huier and isolating the Rif tribesmen still entrenched there.

# BETTER PARENTS MUCH NEEDED

Failures of the body's nervous machinery, or nervousness as the Medical Record phrases it, are on the increase in every civilized community. Indeed, such failure seems to be inseparable from the advance of civilization. As life becomes more complex and the stress of keeping up with the procession grows, the old system of bodily regulation and control fails at various points before nature has a chance to bring it up by the needed structural modifications.

That our nerves and brains as well as our bones and muscles and teeth and hair are undergoing evolutionary modification is manifest. But the process in the nervous system seems to involve more profound changes than elsewhere in the body. Its results are therefore more striking and its pathology more serious. The nervous system in children is one of the serious problems with which the modern physician and educator are called upon to deal.

A discussion of this important subject took place at the recent meeting of the British Medical Association. (These people are not neuroses, beginning very early in life, finally degeneration and defective respiration were explained as due to defective functioning of the nervous system.)

And attention was drawn to the fact that emotional nervous children, as those in which moral perversion most commonly occurs and in which the child is almost always defective. The ideal thing is, of course, to prevent these nervous degenerations and dry up at the source the long stream of suffering and crime which springs from them. This is more of an ideal than a medical problem. It calls for better housing, better feeding, better environment, and, above all, better parents.—New York Press.

# SLEEPING SICKNESS MAY LAST YEARS

NEW YORK, Nov. 26.—The habits of the tasteless fly, whose bite causes the sleeping sickness from which more than 400,000 persons died in East Africa in the last ten years, were explained by Dr. Louis L. Seaman at the anniversary meeting of the Academy of Medicine. The flies are never found more than 150 feet from the edge of a lake or river. They bite a person in the face, neck or arm. A person inoculated with the poison first suffers from intermittent fever. This stage may last from two or three months to as many years. Then the poison attacks the nervous system, the patient becomes anemic and droopy. The sufferer refuses food or falls asleep while eating it, and is exceptionally susceptible to colds. Some cases have been known to survive eight years from the time of infection, but generally death occurs sooner.

# DIES FROM SHOCK OF SEEING BROTHER

PITTSBURGH, Nov. 26.—After being lost to his family for ten years, the shock of meeting his brother proved too much for Stephen Bissett, whose body was sent to New Rochelle, N. Y., early today. While enroute with W. J. Bassett, a New York traveling man, an official of the Pennsylvania Railroad Company of McKees Rocks, near here, said:

"We have an employee of your name in bad shape from pneumonia at a hospital here."

The traveling man suggested that he visit the hospital, mentioning that he had a brother who had been missing for ten years. Going to the ward, where the patient lay, the New Yorker discovered his long-lost brother. The meeting was pathetic but proved too much for the sick man, who died in a few hours. It is said the dead man, who was 38 years old, was the son of rich parents.

# SUFFRAGISTS TO WORK IN MANY STATES

NEW YORK, Nov. 25.—Mrs. O. H. P. Belmont and the women associated with her in the equal franchise movement are arranging to open headquarters in the capitals of a number of states for the coming sessions of the legislatures.

Quarters have been obtained already at Albany and agents have been sent to Hartford, Columbus and Springfield. It is the plan of Mrs. Belmont to conduct an active propaganda with members of the various legislatures, looking to the enactment of laws favorable to women.

# A SPECIALIST SAYS:

"PILES CAN'T BE THOROUGHLY CURED BY OUTWARD TREATMENT."

Dr. J. S. Leonard of Lincoln, Neb., the celebrated specialist, who has studied every phase of piles, says: "Outward treatment is thoroughly cured by ointments nor any other outside treatment. The cause is internal and needs internal treatment." Dr. Leonard perfected Hem-Roid, the first internal pile cure. It frees circulation in the lower bowel, and has cured 98 per cent of cases.

Sold under guarantee at the San Joaquin Drug Co., Price \$1. Dr. Leonard, C. Station B, Buffalo, N. Y., prop. Write for booklet.

# BUY MEN'S LIVES WITH THEIR OWN

## Women Resist Officers Seeking Arrest of Feud- ists and Are Shot Down.

WILLIAMSON, W. Va., Nov. 26.—Firing from the doorway of their home on a sheriff's posse to give their father and brother time to escape, Mrs. Charles Daniels and her 16-year-old daughter were shot to death yesterday near Devan, Mingo county, by the officers.

The shooting of Mrs. Daniels and her daughter grew out of a family feud between the Christians and Daniels on the border of Kentucky and West Virginia. The Christians lived in Mingo county, W. Va., and the Daniels in Pike county, Ky.

About three weeks ago, George Christian, a member of the Kentucky side and was slain by Jim Daniels, a Christian and Daniels were brothers-in-law and had formerly been allies.

After the killing of Christian, the two families and their friends became involved. The Christians obtained warrants for Jim Daniels and his brother, Charles, and led a posse of Pike county officers to the home of the Daniels. When the officers approached the home, the Daniels opened fire with rifles, one of the posse receiving a bullet in the arm.

The Christians returned the fire. Mrs. Daniels was shot in the chest and the daughter stood over her mother's body and fired upon the posse until she dropped dead across her mother, pierced by three bullets.

The officers closed in, but by forcing their lives, in making their way to the house, they were shot and killed. The bodies of the father and brother were recovered.

# WATCH-TOWERS FOR FIRE ALARMS

CHICAGO, Nov. 25.—As a watch-tower for the discovery and direct alarm office, open on four sides of the city, a few feet of the inside of the roof of the City Hall has been suggested to those in charge of alighting the spaces in the new municipal structure.

It is pointed out that the advantage to be derived from a skyline view of the city would be numerous. In the early days of the city and even up to a comparatively recent time, many of the single houses were equipped with towers, and a constant watch maintained.

These watchmen became so expert in the discrimination of lights or glare in the sky that many fires were detected sooner than by customary alarms.

# BOARD OF TRADE UPHOLDS CORNERS

CHICAGO, Nov. 25.—The "Anti-Corner" amendment to the rules of the Board of Trade was defeated at a special ballot today by a vote of 409 to 358.

The proposed rule provided that in case of a "corner" in the market, a committee should determine the value of that commodity on final delivery day and the interested parties would be compelled to settle accordingly.

Another rule provided that if a member conducted an unjust deal or "corner" he could be expelled.

# WORKING TO BUILD BETTER EMBASSIES

NEW YORK, Nov. 26.—The American Embassy Association, which advocates Government ownership of embassies abroad, will send a committee on a tour of the United States next week on a crusade for better embassies.

Talks will be given on social and political conditions in Europe and how they are affected by the conditions of embassies. It is the intention of the committee to make the meetings the social events of the week in the cities they visit.

# EFFECT OF EULOGY ON LAWYERS

The Rev. F. S. C. Wicks, of the All Souls' Unitarian church, told a good story the other day of a young preacher who eulogized a very bad lawyer. He said the lawyer had a bad husband, bad father, bad neighbor, and generally a bad man morally, though he had been very successful in his profession. For the funeral a new preacher in the town was selected and that he would not know just what kind of a man the lawyer had been.

The preacher arrived and asked a man standing by, who was pretty much of a wag, what sort of a man the lawyer was. The man handed the lawyer to the sky. The preacher believed all he said, arose and pronounced a poetic eulogy of the departed barrister. When he had heard all he could stand to hear without unbending himself to some one pretent, the judge of the court in that town leaned over to a lawyer who sat beside him, and remarked:

"Well, there's mighty little inducement for a really good man to die in Smithville now."—Indianapolis Star.

# WHISTLING TREE.

Among the curiosities of tree life is the so-called "whistling tree." Such a tree is given a hollow sound, playing away in the wilderness for hours at a time, strange, weird melodies. It is the spirit of the dead whistling among the branches. The whistling is caused by the sound of small holes, which an insect bored in the spines of the branches. The whistling tree of the Canary Islands whistles in the wind. This tree in the dry weather will rain down showers from its leaves and the natives gather up the water from the trunk and find it pure and fresh. The tree exudes the water from its numerous pores at the base of the leaves.—London Globe.

# PHOSPHORESCENT FORESTS.

The phosphorescence of certain agaves of Borneo has more than once demonstrated the superstitious natives and astonished whites. Some years ago a party of English engineers found it necessary to survey a tract of low-lying country, which was almost impenetrable, and to blaze the trail natives were employed to work at night, others during the day. The former came into an area one night stating that they could not go through a portion of the bush or forest, strange "spirits" on the trees telling them that evil would befall them if they continued. The "spirits" proved to be a muscivorous army of phosphorescent emanating from agave growing upon the dead limbs of the trees. These vegetable fire bodies were traced for a considerable distance, producing a most remarkable exhibition, the light being so bright as to be almost blinding. It was difficult to believe that the forest was not alive. To test the brilliancy the men held papers near the most brilliant portions and read by the light.—London Globe.

# DENUNCIATION FOR FLAT BUILDINGS

CHICAGO, Nov. 25.—The flat building—home of a large percentage of the population of a city—has come under the ban of the Chicago Board of Health. It was denounced at the second annual banquet of the Cook County Real Estate Board last night by Edward R. Pratt, secretary of the Department of Health.

Not even with the coming of the health officials' speech of the denunciation of the flat house. While the real estate men who have been building flats all their lives and some of them even living in them, are thinking over the remarks of Mr. Pratt, they are not at all discouraged.

"I don't believe the adverse effect intended that the flats should be abandoned in these days," said Mr. Pratt. "These flats are, undoubtedly, dignified and unobjectionable."

"If this condition of affairs is permitted to continue, our citizens are allowed to keep on indulging in the vice of becoming a race of physical degenerates. They don't raise big men in flats."

Mr. White said:

"We have too many flat dwellers in our city. The flat is not conducive to good citizenship. We are a population on wheels, wandering from one flat to another, from one side of town to the other. You must agree with me that this nomadic kind of people don't make good citizens."

# BLINDED BY POWDER: LIVES SEVERAL DAYS

SEATTLE, Wash., Nov. 25.—Frederick L. Kert, of 311 Fifteenth avenue, who left the city on November 24 to go to his mining claim in the mountains near Berlin, was killed in his shack by an explosion of dynamite while he was changing his shoes. Both eyes were blown out and conditions in the shack indicate that he may have lived some time after the accident.

This was the story of Kert's death brought back last night by a deputy sheriff who brought the body to this city. Apparently Kert had come in from the hills to his shack and built a fire in the stove, forgetting that sticks of dynamite had been placed in the stove.

He had sat down to change his shoes, and while making the change the dynamite exploded. He had been dead several days when found.

# NORTHWESTERN UNIVERSITY IS A MONEY MAKER

CHICAGO, Nov. 25.—Northwestern University stands in a unique position according to its annual statement made by Business Manager William A. Dreche. While other schools of learning are falling behind in financial affairs, Northwestern is making money. In the fifty-six years of its existence, the total gifts to the university have amounted to \$3,301,000, while at the present time it has resources valued at \$2,295,847.

# AMERICAN BULL FIGHTER WILL RECOVER HEALTH

NEW YORK, Nov. 26.—Harper H. Lee, Harvard graduate and bull fighter, was not killed as reported in a bull fight a month ago at San Luis Potosi, Mexico.

Dr. Horacio Estela, who has just arrived here, states that Lee, who is the only Anglo-Saxon ever to have fought a bull, was severely wounded by an enraged bull while attempting to rescue a fallen pleader. Two operations followed and when Dr. Estela left Mexico, Lee was recovering in a hospital.

# Anty Drudge Goes Shopping on Washday

Anty Drudge—"Is there anything I can get you downtown, Mrs. Weary? I am going shopping this afternoon."

Mrs. Weary—"What! Shopping on washday! Why, I've just got my clothes ready for the line."

Anty Drudge—"And mine are all ironed. I'm not a bit tired, either, so I'll spend the afternoon at the bargain counters. If you had washed the Fels-Naptha way, you could join me."

Fels-Naptha soap will make kitchen work easier, just as it does the washing of clothes. Fels-Naptha will clean anything that is cleanable, and do it far better and quicker than any other soap.

Try it on your pots, pans, dishes and other kitchen utensils. It will "cut" the grease quick as a wink and leave them bright and shiny. It will clean glassware and china, and polish them at the same time.

And because it will do this far better in cold or lukewarm water, there is no danger of breaking fragile glass and china by putting them in scalding water.

Kitchen sinks, shelves, cupboard and floor should all be scrubbed with Fels-Naptha. It whitens woodwork as well as cleans it, and neither roaches nor ants will infest a kitchen where the cleaning is regularly done with Fels-Naptha, and chips of the soap placed where they congregate.

Follow the easy directions on the red and green wrapper.

# COLONIST SCHEME FOR NORTH MEXICO

GUADALAJARA, Mex., Nov. 26.—Bernardo Pineda, mayor of the City of Mexico, has organized a company with a capital of ten million pesos to take over two million acres in the state of Tamaulipas and to irrigate and colonize 20,000 hectares, or approximately 50,000 acres, the largest project ever undertaken in this republic.

The lands extend along the Rio Grande for fifteen miles and south to the Concho river, about ninety miles. Water for irrigation will be secured by supplying the 2,000 hectares, and the company will receive a subsidy of 6,000,000 pesos from the Mexican government.

The company expects to secure the majority of its colonists in Europe.

# TOBACCO GROWN IN ORANGE COUNTY

LOS ANGELES, Nov. 25.—Connection and imported Havana tobacco is being successfully grown at Santa Ana, California, Orange and Healdsburg counties. The results of the experiment, which have been carried on by E. S. Matthews, a tobacco expert, show that thousands of acres, otherwise infertile, produce tobacco, valued at from \$250 to \$300 worth of cigar material to the acre.

On the tract already planted, Matthews says, two crops of imported Havana tobacco a year can be produced. The yield is from 1,200 to 1,500 pounds per acre, worth from 20 cents to 30 cents a pound. Of course that seed, according to Matthews, the facts are producing up to 2,000 pounds to the acre, worth from 15 to 25 cents per pound.

# TEN MILLIONS GIVEN BACK TO CONSUMERS

NEW YORK, Nov. 26.—When it is believed to have been the largest and most comprehensive bookkeeping task on record has been completed by the payment of \$10,321,027 to gas consumers entitled to a rebate of 20 cents on the dollar on their gas bills, between the time the 8-cent gas law was enacted and when it was declared unconstitutional.

The task included the auditing of 1,355,575 vouchers, the writing of as many checks, the examination of many thousands of audits and the use of 2,500,000 postage stamps, with as many envelopes and filled-in circular forms. More than 1,000 bookkeepers and clerks were employed in this task for thirty-eight weeks.

# CHURCH RAISES MONEY FARMING

BEAVER, Okla., Nov. 25.—In order to raise enough money to pay off the indebtedness of the Christian church here, the congregation has taken up farming and yesterday the crop of broom corn, grown on a forty-acre field near the church, was sold. All the work was done by the congregation, headed by the pastor, Rev. E. E. Coffey. Women and children helped gather the harvest, which made over five tons of broom straw and sold for \$850.

A Maine farmer has purchased a black fox skin, paying the current price, \$1,000, therefor. The trader who gets one black fox in a season can afford to buy all the rest of the time, for if he knows the value of his prize, he can sell it for \$1,000 or more, spot cash. But not many trappers have such luck as to get a black fox, for that valuable furs, like other good things, is rarely found.—Kennebec Journal.

## The National Dessert

### Mince Pie

Mince Pie comes nearer being the typical national dessert than any product of the American kitchen.

To have good mince pie you must have perfect mince meat.

# TEA GARDEN

## Mince Meat

ready for use, and the most delicious combination ever made for a pie, is at your grocers waiting for you. It is so much better and cheaper than any prepared in the home kitchen, that it is a waste of time and money to make mince meat at home.

Prepared in our celebrated spotless kitchen, from tender, juicy cuts of beef and pork, inspected and passed by Uncle Sam, with a combination of California and Oregon fruit and home ground spices. Ask your grocer for Tea Garden Mince Meat. Cuts no more than ordinary varieties, but oh! how different.

## \$20 CASH PRIZES for the USE of Your BRAINS

I have entered into contract to be the pioneer work in this section for the installation of a WIRELESS TELEPHONE and SPARK-LESS and NOISELESS WIRELESS TELEGRAPH System.

The basic patents are owned by the RADIO TELEPHONE CO., known as the parent organization.

Licenses have been granted to subsidiary companies to use the system along the Great Lakes and the Atlantic Seaboard.

These companies have been entirely financed and the stock withdrawn from the market at an advance of about 200 per cent above the original purchase price.

Stations have been erected in the principal Eastern and central Western cities.

The Pacific Radio Co. has been organized to install the system on the Pacific coast.

The first step is to raise the necessary funds by the sale of stock. The policy of the parent organization is to get the benefit of local capital and local economy in its expenditures and local management.

In order to regard this matter I have deposited \$20 IN THE FIRST NATIONAL BANK to be given by the judges of this contest to those who send in the best answers to these questions:

First. Why should the people of Fresno invest their money in Pacific Radio Co.'s Wireless Telephone stock?

Second. Why should they not invest?

To the best answer to the first question \$5.00 will be paid. To the second best answer \$2.00 will be paid. To the third, fourth and fifth best answers \$1.00 each will be paid.

To the best answer to the second question \$5.00 will be paid. To the second best answer \$2.00 will be paid. To the third, fourth and fifth best answers \$1.00 each will be paid.

Rules of contest: Every one is eligible. It costs nothing to try. Answers must be mailed or delivered on or before Dec. 31st.

Mr. William Robinson and Rev. Duncan Wallace will act as judges of the contest, they to choose third man.

## DECLARES TURMOIL HURTS RAISIN SALE

Frank U. Gray Tells of Trip  
to East.

Stocks Light, But Hand-to-  
Mouth Policy Pursued  
By Jobbers.

F. U. Gray, of the Fresno Raisin Packing Company, has returned to Fresno after a six months' visit to the East, studying the market. He says that while the market is lighter than it was a year ago, the raisin crop is not so good as it was in 1908. He says that the market is not so good as it was in 1908. He says that the market is not so good as it was in 1908. He says that the market is not so good as it was in 1908.

You must appreciate that all this agitation which has been going on on the coast through the newspapers for the last two or three months has done a great deal towards keeping the market unsettled. The jobbers, reads the paper, are not so good as they were in 1908. The market is not so good as it was in 1908. The market is not so good as it was in 1908. The market is not so good as it was in 1908.

His salesmen were instructed not to push raisin sales, but to devote time and attention to other commodities which would show an absolute profit to the house. "To further illustrate how the jobber can govern the sale of raisins on a great many Saturdays afternoons, I have had the pleasure of being invited by the jobbers of several large selling houses in New York and Chicago to their meetings with their salesmen. Fifteen or twenty salesmen are lined up in front of this big room to receive the instructions of the goods they are to sell in the case of size of the largest selling house in the United States, located in Chicago. The buyer told salesmen not to sell any more raisins than were absolutely demanded by their retail customers, owing to the fact that their house was not in favor of buying raisins or making any effort on raisins unless they had a more reasonable assurance from the coast that there was a chance of making a profit than they had at this date. He also advised the salesmen on the fact that the loss was approximately \$100,000, the situation on the coast was all to the good, and the growers and packers were desperately fighting among themselves, and there were ten or fifteen other articles on the list, outside of raisins, that the house could make money on. On account of this situation he said, 'Boys, if a customer wants ten cases of raisins at \$1.12 cents, get them. If he wants three cases at 7 cents, this will not move such a quantity, but it will save our house from loss, though we make an appreciable profit by reason of doing such a limited business on the line. Nevertheless, we cannot afford to lead up with raising in the face of the existing unstable market at the producing end.' This is the way the majority of buyers of large jobbing houses are talking to their salesmen today.

## S.S.S. DRIVES OUT RHEUMATISM

When the blood becomes overcharged with uric acid it continually grows weaker, more acid, and poorer in nourishing qualities. The nerves, muscles and joints, instead of receiving their necessary nutriment from the circulation are gradually filled with the sharp uric acid impurity with which the circulation is loaded, and the pains and aches of Rheumatism are the natural result. No amount of rubbing, or the application of external medicine, can have any direct and curative effect on the blood; the most to be expected from such treatment is temporary relief from the pains and aches. There is but one way to cure Rheumatism, and that is to cleanse the blood of the uric acid impurity. S.S.S. is the proper treatment, because it goes down and attacks the disease at its head, and by filtering out every particle of the uric matter and strengthening and enriching the blood, cures Rheumatism in every form. S.S.S. changes the sour, acid-burdened blood to a rich, healthy stream, which quiets the pain-racked nerves, muscles and joints, cools the feverish flesh, gently removes the cause and drives Rheumatism from the system. S.S.S. reaches inherited cases as well as those which have been acquired, and good results are always experienced from its use. Special book on Rheumatism containing many valuable suggestions for rheumatic sufferers and any medical advice free to all who write.

## WILD MAN CAUGHT NEAR CAVE HOME

Lived Off Stolen Property  
and Had Spoken to No  
One for Many Months.

UNION, Cal., Nov. 26.—(Reuter.) A wild man of Hispanic origin was captured last night by the police of this city. He was found in a cave near the city. He had been living off stolen property and had spoken to no one for many months. He was found in a cave near the city. He had been living off stolen property and had spoken to no one for many months. He was found in a cave near the city. He had been living off stolen property and had spoken to no one for many months.

## BANK NOTES TAKEN ALL OVER WORLD

The only money that is accepted practically all over the globe is not money at all, but the notes of the Bank of England. These notes are simply printed in black ink on heavy water-proof paper, plain white with raised edges. The notes of the Bank of England are made of white water-laid paper printed in black and white, with numerous antithetical and allegorical pictures. They are in denominations of from 25 francs to 1000 francs. Bank of England notes are of a somewhat unimpressive size, 5 by 8 inches. South American currencies resemble the bills of the United States, except that cinnamon brown and slate blue are the prevailing colors. German currency is printed in green and black, the notes being in denominations of from 2 marks to 100 marks. The one-mark bill is printed on silk. It takes an expert or a native to distinguish a Chinese bill from a laundry ticket if the bill is of low denomination or a five-cent note if for a large amount, the print being in red on white or yellow on red, with much gilt and gorgeous devices. Indian notes are of all sizes, shapes and colors. The smaller bills, 2 and 10 rupees, are printed on white paper, in pink, blue and vermilion ink. The most striking paper currency in the world is the glaucous note of Russia, which is barred from top to bottom with all the colors of the rainbow, blended as when a sun ray passes through a prism. The American practice of scattering strands of silk through the paper fiber as a protection against counterfeiting is unique. Harper's Weekly.

## THE WELL-BELOVED ENEMY.

I know a chap who's used me all. Almost since I was born. He's been my enemy to carry a bill. And trouble most forlorn. In school he's cost me endless woes. Too many here to tell. And yet in spite of all, I know, I love him mightily well. He had me spanked when I was ten. For something that he did. As I look back upon him then. He was a fearful kid. He said mean things about my dad. 'The little fellow.' And yet there was no other lad I cared for quite as well. In college he was mischief bent. On the part all the blame. No matter where that villain went. For me 'twas quite the same. He had the fun; I got the book. In all things that befell. And yet by some queer mental crack I loved that fellow well. The girl I loved he won and wooed. And wed her, and today. Is rather of a lovely breed. Of kiddies little and gay. He's the shame of her eye. His is the blissful spell. Yet spite of all I can't deny I love him just as well. I know full well his weaknesses. The strange twists of his mind. And yet there's something in me says. He's not a half-bad kind. And though he's been an enemy Beyond all parallel. The time has never ceased to be. When I have loved him well. Who is he? Well, come hither while I whisper secrets. I fear his name will make you smile. It's 'Dad'.

—New York Sun.

OPEN SATURDAY EVENING UNTIL 10 O'CLOCK.

## Always Good News at Valentine's

We again wish to inform the people of Fresno and vicinity that we have just received another big shipment of high grade sample shoes for Men, Women and Boys. Remember they are all \$2.00 to \$2.50 sample shoes, at only

# A GOOD OIL INVESTMENT IS WORTH A LIFETIME OF LABOR

There is no better business today than the Oil Business. You can find no safer investment than the stock of

## THE COALINGA UNITY OIL COMPANY

75 cents a Share

This company has purchased 40 acres of proven oil land in the heart of the West Side District that is surrounded by producing wells. It is certain to become a quick dividend payer and its stock will rapidly increase in value.

Well No. 1 will be finished about December 1, 1909.

We have equipped the property with a complete outfit, including bunk houses, water well, tanks and a complete standard drilling rig.

The first allotment of stock at 75c is now nearly exhausted. Orders will be received at this price only subject to previous sale.

## No Royalty to Pay

Every dollar received from the sale of stock and from oil will be used on the property to make it one of the best holding in the Coalinga field.

Look up the men back of this enterprise: investigate the quality of the land. If you have money to invest, send for our booklet entitled "Facts About the Oil Business and THE COALINGA UNITY OIL COMPANY."

# NEWS OF EVENTS IN REALM OF SPORT

## JOHNNY O'KEEFE WINS FROM CARRANZA IN ELEVENTH ROUND ON A FOUL; 1500 SEE FIGHT

Spanish Boy of Oil Town Has O'Keefe All But Out in Ninth; Young Duffy Beaten By Blacky Mitchell in the Fifth.

O'Keefe won from Carranza on foul. 11 Rounds. Blacky Mitchell knocked out Young Duffy. Young Dempsey-John Harrison, draw.

Before 1500 light fans, Johnny O'Keefe of Denver was given the decision over Lope Carranza of Coalinga in the 11th round on a foul at the oil town arena of the Coalinga Athletic Club yesterday afternoon. The last blow in the fatal round was the light of the end of the round, Carranza was knocked out by the foul. Carranza was hit on the head and fell to the floor, the victim of a foul blow, but the winner of a splendid exhibition. Freddie Hovess, O'Keefe's manager, stated after the fight:

"Johnny was sent to the hospital. Carranza had the better of the going. As a whole, the contest was fast and furious. Carranza drew first blood in the fifth. He closed O'Keefe's right eye. In the ninth, the Spanish middleweight staggered Johnny with a shower of blows, and O'Keefe's seconds helped him to his corner at the close of the round. However, the Denverite came back strong in the tenth and held his own in the eleventh. Coming out of a clinch, Carranza hit low and O'Keefe slowly sank to the floor, the victim of a foul blow, but the winner of a splendid exhibition. Freddie Hovess, O'Keefe's manager, stated after the fight:

**MANAGER'S STATEMENT.**  
"Johnny was sent to the hospital. Carranza had the better of the going. As a whole, the contest was fast and furious. Carranza drew first blood in the fifth. He closed O'Keefe's right eye. In the ninth, the Spanish middleweight staggered Johnny with a shower of blows, and O'Keefe's seconds helped him to his corner at the close of the round. However, the Denverite came back strong in the tenth and held his own in the eleventh. Coming out of a clinch, Carranza hit low and O'Keefe slowly sank to the floor, the victim of a foul blow, but the winner of a splendid exhibition. Freddie Hovess, O'Keefe's manager, stated after the fight:

**THE PRELIMINARIES.**  
The scheduled 15 round bout between Young Duffy and Blacky Mitchell was a repetition of the O'Keefe-Carranza bout. For four rounds Duffy pummeled Mitchell about the ring. In the third round he knocked Blacky down three times. In the fifth the tide turned, and Mitchell sent Duffy to the mat with a hard right on the point of the jaw. Duffy was out for 20 minutes. The second curtain-raiser between Young Dempsey of Fresno and John Harrison, an unknown, was a very tame affair. Before Hornbuckle, referee of the bout, Vir Hansen, the oil field writer, challenged the winner of the O'Keefe-Carranza bout in the ring before time was called. Hansen was given a rousing reception by the fans.

## PROFITIOUS WEATHER DRAWS BIG CROWD AT EMERYVILLE; FAVORITES ARE SUCCESSFUL

OAKLAND, Nov. 26.—Fine weather prevailed at Emeryville today and there was a good crowd in attendance. The track was heavy, but was drying up rapidly.

Favorites and well played horses were successful. Burleigh, the odds-on choice for the second race, quit early after leading most of the way. Race 4, won by a neck from Inche-nest. Rosevale led all the way in the fourth. Miniclar was regarded as a good thing, but the well-supported Miniclar beat him easily. Results:

First race, five furlongs, selling—Belle Kinney, 106 (Bevan), 11 to 5, won; Miniclar, 110 (Archibald), 6 to 5, second; Good Ship, 102 (Bevan), 7 to 1, third. Blood, Silver Pie, Re-deemed, Melton Dale, Tom O'Mally, Seem, Brooks and Beda finished as named.

Fourth race, mile and twenty yards, selling—Rosevale, 104 (Waleh), 7 to 5, won; Ed Hall, 109 (J. King), 5 to 1, second; Chicago, 107 (Rooney), 5 to 1, third. Time, 1:43 4-5. Mr. Bishop, Laddington, and Ake-Ar-Ben finished as named.

Fifth race, mile and twenty yards, selling—Legatee, 109 (Cotton), 9 to 5, won; Copied, 109 (Cotton), 5 to 1, second; Sea Lad, 104 (Selden), 3 to 1, third. Time, 1:43 2-5. Lasell, Col-son, Bold, Wap, Little Fannie and Argonaut finished as named.

Sixth race, six furlongs, selling—Belle Kinney, 106 (Bevan), 11 to 5, won; Miniclar, 110 (Archibald), 6 to 5, second; Good Ship, 102 (Bevan), 7 to 1, third. Time, 1:43 2-5. Bor-ean, Denon, St. Avon, Volville, Am-jedo and Balde finished as named.

Third race, five and a half furlongs.

## Two Sturdy Grapplers Who Will Wrestle For Irish Championship

The sporting public is finding that with a sudden rise of interest in the glove and squared circle pastime, caused perhaps by the Jeffries-Johnson agreement, a similar boom has struck the wrestling game. Promoters all over the country are in an earnest endeavor to boost the strenuous mat game back to the old place it occupied in the hearts of the sport-loving public. Many big bouts have been pulled off, and more are to come.

## TALENT FARES BETTER AT FLORIDA RACE TRACK

## ALEX BOPP'S TEAM TACKLES SELMA TOMORROW

**Bittels Confident of Victory; Recreation Park Scene of Game.**  
Interest in local amateur baseball circles now turns to the scheduled exhibition tomorrow afternoon at Recreation park between the Bittels and Selma. The game will be called at 2:30 with George Freis handling the indicator. The Bittels, formerly the Red Sox, hold a most enviable record, having won twice as many games as they have lost this season. Commencing early last summer, Alex Bopp's proteges won game after game against fast local teams, not suffering a loss till late in the season when they ran up against the Madrona Ponies, aspirants for the amateur title of Central California from the Republicans. The Selma team was in the field last summer, but disbanded after a few months' playing. Recently, Manager C. H. Wiskerson re-organized his aggregation and to date his bunch has given a splendid account of itself. Wiskerson is confident of taking the Bittels into camp, but from the showing made by Bopp's men earlier in the year, it looks like a victory for the locals.

**The line-up:**  
Bittels: Henry 6, Rowland 6, Scheldt-H. 6, Belir 6, Waters 15, Miller 25, Smith 25, Ehat 25, Freis 25, Crow 25, Selbert 25.  
Selma: Rowland 6, Belir 6, Waters 15, Miller 25, Smith 25, Ehat 25, Freis 25, Crow 25, Selbert 25.

## JIMMY GLAVIN CHAMPION OF NAVY OVER DICK PHILLIPS

NORFOLK, Va., Nov. 26.—In a fight at the Norfolk navy yard last night, witnessed by a thousand men, mostly naval officers and enlisted jockies, Jimmy Glavin, middleweight champion of the navy, defeated Dick Phillips, welterweight champion. The fight was to have been for ten rounds, but the tearing of one of Phillips' gloves caused the bout to come to the ninth. Glavin, an electrician on the battleship Virginia, outweighed Phillips, also an electrician at the navy yard wireless station, by fifteen pounds. The betting was 2 to 1 in favor of Glavin and \$200 changed hands.

Phillips declares he is determined to fight Glavin to a finish, and arrangements have been made for the two men to meet again Christmas night.

## ARGENTINA SECURES MORE NORTHERN GOLD

NEW YORK, Nov. 26.—The drain on this country's gold supply through shipments to the Argentine republic continues. So far this week \$2,000,000 gold has been engaged to be sent to that country by the next steamer. This brings the total shipments of gold from the United States to Argentina since January 1, to \$4,455,000.

The total of gold exports to all points in the same period is raised by this week's engagements to \$97,900,000.

## DENVER MINT TO RE-OPEN

DENVER, Nov. 26.—The Denver mint, which was shut down last July because of a surplus of all denominations of gold coins, will open the first of the year with between \$18,000,000 and \$20,000,000 in gold bullion on hand, which will be immediately coined into money of small denominations, according to an announcement made today by Superintendent Frank Downer.

## HEAVY SENTENCE FOR INDIAN

LAMAR, Colo., Nov. 26.—Henry Starr, the Indian desperado who pleaded guilty to having robbed a bank at Amity, Colo., was sentenced today to from seven to twenty-five years' confinement in the penitentiary.

## RAILWAYS TO SPEND MILLION IN ADVERTISING COLORADO

DENVER, Nov. 26.—At the local offices of the Colorado and Southern railroad it was announced today that the railroad would spend \$1,000,000 in advertising Colorado throughout the United States.

## FRESNO BOY MANAGER OF ST. MARY'S TEAM

GEORGE C. BOLES

The Fresno boy who has led the St. Mary's Catholic college football team to victory this season over Santa Clara, the old time rivals of St. Mary's for the state championship, Young Boles entered St. Mary's when he was 15 years of age. In three years he finished the high school course and is now taking the college course. Since the beginning of the 1909 term, he has held the position of manager of the Rugby fifteen. The season came to a close last Saturday with a 5 to 0 victory over Santa Clara college. Boles is a son of George M. Boles of this city.

## FRENCH WRESTLER TO MEET GALICIAN

KANSAS CITY, Nov. 26.—Zebysko, the Galician wrestler, and Raoul de Rouen, the Frenchman, have been matched to wrestle here Friday, December 3rd, according to an announcement made today by W. D. Seccille, manager of the Missouri Athletic Club.

## CALVIN DEMAREST BEATS FRENCH CHAMPION BILLIARDIST

## MARSHALL CHESS CHAMPION OF U. S.

LEWISTON, Ky., Nov. 26.—Frank J. Marshall of Brooklyn tonight defeated J. W. Showalter of Georgetown, Ky., for the chess championship of the United States, having won seven out of twelve games played. Showalter taking two and the others being drawn.

## MINE PROBING IS TO BE PUBLIC

CHICAGO, Nov. 26.—At a preliminary meeting of the Illinois mining investigating commission, today it was announced that all the details of the Chicago mine disaster would be made public.

The commission has full power to subpoena witnesses and to take their testimony under oath and is to report its findings to the governor and to the legislature.

The commission is composed of three mine operators, three miners and three other members.

## KERENS TO BE DIPLOMAT

WASHINGTON, Nov. 26.—Richard C. Kerens of Mississippi, according to current reports, will be appointed ambassador to Vienna upon the assembling of congress on December 6th. State Department officials, however, are non-committal on the subject.

## CINCINNATI ORCHESTRA

CINCINNATI, Nov. 26.—After two years of suspension the reorganized Cincinnati Symphony Orchestra gave its first concert at Music Hall this afternoon before a large audience. It was the American debut of the conductor, Leopold Stokowski, from Paris.

## PHILADELPHIA NATIONALS SOLD TO SYNDICATE FOR \$350,000; JOHNNY KLING TO BE MANAGER

Report That Mike Donlin Will Play in Outfield—Horace S. Fogel, Sporting Editor, Is President of New Company.

PHILADELPHIA, Nov. 26.—The Philadelphia National League baseball club was sold today to a syndicate, of which Horace S. Fogel of this city is the head. The price is said to be \$350,000. The deal was consummated in the office of Clarence Wolf, one of the owners of the Philadelphia club. As soon as the papers had been signed, representatives of the syndicate went to Camden, N. J., and organized by electing Horace Fogel, president; William Conway, secretary, and Frank S. Elliott, treasurer.

These men, together with John A. Schwartz and Thomas Curley, will comprise the board of directors. The club is incorporated in New Jersey. Charles W. Murphy, president of the Chicago club of the National League, represented his organization at the conference to see that provisions of the National League constitution were properly observed.

The fact that Mr. Murphy was present caused a rumor that he would be financially interested in the new management. Mr. Murphy denied this.

The Philadelphia club was formerly owned by Clarence Wolf, a banker, James P. Nickel, a Philadelphia politician, and the late Israel W. Durham, a political leader.

An offer of \$15,000 was made to President Murphy for the release of John Kling, providing the National Commission would reinstate the famous Chicago catcher.

President Fogel has been identified with several Philadelphia newspapers as a sporting writer and manager; Conway was president of the Philadelphia Building Exchange; Elliott is a lawyer; Schwartz, a silk manufacturer, and Curley, a lawyer and politician of Camden.

William J. Shetsline, secretary of the old organization, probably will act as business manager of the new organization.

John Kling, the star catcher for the Chicago National League club, was mentioned as the probable manager of the Philadelphia team. It is said Mike Donlin will come here as a contender. The deal was closed here today.

## KLING SAYS "NIX"

KANSAS CITY, Mo., Nov. 26.—After reading the details of his provisional sale to the Philadelphia National League club, John A. Kling said "Nix." "I am out of baseball for all time," said Kling. "My business interests are here. I am making money. Therefore here I shall stay."

It was learned tonight that Kling had just signed a seven-year lease for a site for a baseball park here, where his semi-professional baseball club will play.

CINCINNATI, Nov. 26.—President August Herman of the National Baseball Commission when asked tonight concerning the proposition for the release of John Kling by the Chicago National League for \$15,000, to Philadelphia, said: "Kling is ineligible at present, but the commission will take no action in the matter unless he starts playing with Chicago or some other organized team. Then his case will be taken up."

Mr. Herman said he was unaware of any sale of the Philadelphia team because what he had seen in the papers. He added, however, that from a conversation he had had with Charles W. Murphy, recently, he believed that the Chicago baseball magnate was interested.

Charles P. Taft of this city, owner of the Chicago National club, said that he had no information regarding the Philadelphia deal and could not say whether Murphy was financially interested.

## ANOTHER FOOTBALL VICTIM

WACO, Texas, Nov. 26.—Ethelbert Harris, quarterback of the Waco High school team, is in a dangerous condition today as the result of injuries suffered in a football game yesterday.

## Belief That Members of Consolidated Will Not Face Their Accusers---Proof of Market Demoralization

December shipment at 4 1/2c for fancy. One of them quotes choice at 4 1/2c, while the other is said to be willing to book orders for 4 1/2c.

The drop in prices on the coast can only be guessed at here, but the assumption by those who have been carefully following the developments in California of late is that the outside interests there, which within the past few weeks have succeeded in buying up a large percentage of the crop from growers, giving them a controlling interest in the available packing house supply.

Speaking of the cut in 4 1/2c f.o.b. on grounds of cruelty and inhuman treatment and alleged that Tower subjected her to great humiliation in a cruise on Mr. Tower's yacht, Earl Kling, who since then has become a gambler in the town of San Francisco.

Tower is the owner of the Poughkeepsie farm works. His wife formerly was Mary Hagedorn, an operator in the Poughkeepsie Central Telephone exchange. She was married to her first husband, who was killed in the first world war, and she was found shot to death in their rooms in the Tower home seven years ago. Mrs. Tower alleges in her complaint that Mr. Tower is worth \$7,000,000.

HALLE, Province of Saxony, Prussia, Nov. 26.—Herr Kunert, Socialist, a by-election held today for a member of the reichstag for Halle-Saalkreis, defeated his radical opponent, 25,553 to 21,298. The vacancy was caused by the death of Karl Adolph Schmidt, radical, who in the general election of 1907 had an absolute majority over two other candidates, one of whom was Herr Kunert.

**\$500 FOR LONGWORTH DINNER**—PITTSBURGH, Nov. 26.—Not the least in a long list of expenses in the current campaign in this county and fill today by the Republican county committee appears a bill for \$500 for a dinner given to Mrs. Alice Roosevelt Longworth at the Duquesne Club. The occasion was the presence here of Congressman Longworth and his wife in a speaking tour of the state.

LOS ANGELES, May 28.—Fred Brockway, said to be a wealthy resident of Tacoma, Wash., was arrested here tonight on complaint of Martin J. Joyce, a mill man, who charges that he had obtained loans from him at exorbitant rates and on other men under false representations.

Young Brockway, who is in jail, said to have confessed that he had fled from home two weeks ago and was registered at an expensive hotel as the press agent of a well known comedian.
